Jap Surrender Flight Set

Huge Damage Done Japs by Forts is Told

By CLARK LEE

GUAM, Aug. 17 (INS)—U. S. Strategic Air Forces headquarters disclosed today that Superforts destroyed the major productive capacity of 59 Japanese home island industrial centers in attacks since Nov. 24, 1944.

In a recapitulation of Superfort raids launched from India and the Marianas islands, headquarters announced the big bombers flew more than 10,000,000 miles in crushing Japan under the weight of 169,421 tons of bombs.

The destructive tonnage included the two atomic bombs, one on Hiroshima, the other on Nagasaki in the closing phase of the war.

In making normal 3000-mile roundtrp missions, the B-29's carried out 32,612 individual sorties, losing 437 aircraft and 297 Superfort crews. Personnel losses to enemy action and accidents incident to combat aggregated fewer than 3000 men.

Casualties were light in recent operations and the air-sea rescue system—employing ships, aircraft and airborne life rafts—saved more than 600 men.

In addition to the 59 cities virtually destroyed, insofar as war production was concerned, the Superforts severely damaged six other industrial centers.

Damage to two urban industrial areas has not been surveyed, headquarters said. Complete assessment of damage, according to the communique, must await "photograph reconnaissance and ground survey."

Important war factories completely destroyed or severely damaged totaled 581. These included 23 major Jap aircraft factories whose enforced "cutbacks" resulted in a 60 per cent decrease in Jap airplane production.

Six major arsenals were destroyed or severely damaged as well as two major steel plants. The damage to the steel plants resulted in a 15 per cent loss in production.

Superforts also destroyed Japan's major oil refining capacity by bombing eight principal oil installations, thus preventing Japan, like Germany, from developing important synthetic production after being cut off from natural sources.

Against a loss of 437 planes to all causes, the B-29's destroyed or damaged 1935 Jap planes in the air and 350 on the ground. In addition, escort fighters destroyed or damaged 1047 Japs while losing 106.

Petain Sentence Is Commuted

PARIS, Aug. 17 (AP)—Gen. De Gaulle today commuted Marshal Petain's death sentence to life imprisonment.

The action consisted of approving a statement the court wrote into its verdict which expressed the wish the execution not be carried out.

A jury of the high court of justice condemned the 89-year-old head of the Vichy regime to death for betraying the state to the Germans during the occupation.

Petain denied the charge but made no plea for his life.

Criminal?

EMPEROR HIROHITO

LONDON, Aug. 17 (AP)—A British Foreign Office commentator said today there was nothing to exclude Emperor Hirohito from being tried as a war criminal if the Allies decided he was responsible for the Japanese policy of aggression.

Australia Asks Hand in Peace

CANBERRA, Australia, Aug. 17 (AP)—Premier Joseph B. Chifley declared today that "the Australian government considers the war effort of Australia has not had sufficient recognition in the peace negotiations."

"Australia should get a position in the making of peace terms commensurate with the very substantial contribution she made to final victory," he added.

The Australian war cabinet, he announced, has informed Great Britain that an Australian composite force of navy, army and air units would be furnished to participate in the occupation of Japan.

Chifley said the proposed composite force would comprise a navy task force in addition to Australian ships already attached to the British Pacific fleet, two army brigade groups and two Royal Australian Air Force squadrons.

Mountbatten, Aussie Missions in Manila

MANILA, Aug. 17 (AP)—Gen. MacArthur's headquarters announced tonight arrival in Manila of special military missions from the United States War Department, Adm. Lord Louis Mountbatten, commander of the Southeast Asia command, and the Australian army.

CHUNGKING, Aug. 17 (AP)—Gen. Hsu Yung-Chung, head of the board of military operations at Chungking since 1937, left today for Manila as chief of the Chinese delegation to Japan's surrender.

Restrictions Lifted On High-Test Gas

WASHINGTON, Aug. 17 (AP)—Restrictions on the manufacture of high-test gasoline were removed today, opening the way for the return of prewar quality motor fuel.

The revoked order limited the octane rating of premium grade gasoline, and limited the amount of this gasoline to a percentage of the production of regular grade.

By Associated Press

Gen. MacArthur announced today the Japanese government had notified him its surrender emissaries had been selected and would leave by plane tomorrow for Manila.

This word came from the defeated enemy after two days of quibbling on the part of Tokyo and after MacArthur had curtly told Japan to comply with his directives "without further delay."

The Jap message said:

"From Japanese GHQ to Supreme Allied Commander, radiogram, 7 a 17. Our representative to Manila selected. Due to necessary internal procedure he is scheduled to leave Tokyo on August 19 (Tokyo time). Further details will follow."

Before arrival of the Japanese message, four American B-32 bombers, flying a photographic mission over the Tokyo bay area, were attacked by 10 Japanese fighters and moderate to intense anti-aircraft fire. One of the big four-engined bombers was badly shot up around the wings, flaps and cowling, but none of the crew was hurt.

Two Nipponese fighters were sent down in smoke and listed as probably destroyed.

The interception occurred eight miles south of Yokohama as the B-23s approached the Tokyo ba yarea, which was slightly overcast. The fliers reported they had counted at least eight enemy fighter planes primarily Tojos, and they described the tactic as "not too aggressive."

Anti aircraft fire was hot in spots. Airmen said they encountered 50 to 60 bursts over one area.

Today Gen. MacArthur curtly ordered the Japs to comply without further delay with his directive to send emissaries to Manila.

MacArthur did not set a deadline for the departure of the Jap envoys but indicated definitely he would tolerate no extended delay without good reason.

"The directive from this headquarters is clear and explicit and is to be complied with without further delay," the stern message said.

Members of the imperial family, carrying the Emperor's "cease fire" order, left today for major fighting fronts under Allied safe conduct to plead with the militarists to accept a surrender which MacArthur is increasingly impatient to legalize.

Two planes bound for China and Manchuria should arrive in sufficient time to begin talking tomorrow with the generals of the Kwantung army and armies in China.

A third group left for Indo-China, one day ahead of schedule, to avoid possible bad weather. They should arrive tomorrow.

MacArthur gave this imperial mission new urgency with his blunt demand that the Japanese get on with the surrender negotiations.

There was no indication MacArthur had replied to an urgent request by the Japanese to ask a halt to what Tokyo termed a continued Soviet offensive in Manchuria.

Observers noted that Jap communications were good enough to pin-point the location of the Rus-

Jap Balloon Landed Near Coast Warships

By the Associated Press

The Japs scored what may be their nearest bomb balloon hit close to any military objective recently when one of the lethal loads landed in a duck pond dangerously near U. S. warships at Mare Island, Cal., Navy yard.

Sheriff John Thornton of Solano County said the bomb was rendered harmless by the water. The balloon was one of 12 which settled in the San Francisco North Bay County in eight months.

California with all of its war plants received only a small portion of the 230 balloons which fell on the Pacific coast.

Japs Begin Surrendering To Reds in Manchuria

LONDON, Aug. 17 (AP)—Japanese troops on some sectors of the Manchurian front began surrendering today and the Red army took 20,000 prisoners, the Soviet communique announced.

Following upon Marshal Vasilevsky's ultimatum yesterday to the Japs to turn in their arms by noon Monday, Soviet spearheads continue to drive deeply into Manchuria from all sides, the communique reported.

Kailu, 170 miles northwest of Mukden, industrial heart of the country, was captured by one armored force. Several towns were taken by other forces operating down the Chinese Eastern Railway toward Harbin, pushing in from the north and east. Poli, 18 miles east of Harbin, was captured and troops advanced 12 miles down the Sungari river.

Yesterday the Russians charged the Japs had launched widespread counteroffensives at the same time they were asking Soviet troops to cease hostilities. The communique indicated, however, all these counterattacks were turned back decisively.

Peace Order 1st Work of Jap Cabinet

SAN FRANCISCO, Aug. 17 (AP)—Gen. Prince Naruhiko Nigashi-Kuni was sworn in as Japan's new premier today and in his first official act as premier-war minister ordered the army to "strictly observe" an imperial rescript to lay down its arms.

"The decision has been taken to cease fire and return to peace," he declared.

The new postwar cabinet, in which the royal premier, who may himself be tried as a war criminal, retained the war portfolio, went into session immediately after it was sworn in.

Domei News Agency quickly went on the air with the announcement the first duties of the cabinet would be the signing of the surrender or "the peace terms" and fulfillment of the Potsdam declaration to be enforced."

"Once we have laid down our arms," said the broadcast, "we must take up matters with absolute calmness. If there should be any incident in violation of His Majesty's command, we will lose the confidence of the world.

* * *

"The second thing which we must bear in mind is that we must recover ourselves from the ravages of war and plunge into the work of reconstruction at the earliest possible moment."

Higashi-Kuni "announced to his cabinet a three-point basic policy—respect of the constitution, control of the military and maintenance of order."

BULGARIA RESIGNATIONS

SOFIA, Aug. 17 (AP)—Four cabinet ministers resigned today after Premier Kimon Georgiev announced Bulgarian national elections would be held as scheduled Aug. 26.

Kamikaze Boss Ends Own Life

SAN FRANCISCO, Aug. 17 (INS)—The Japanese Navy Ministry announced today that V. Adm. Takijiro Onishi, revealed in May as "originator" of suicide air attacks by kamikaze pilots, committed suicide yesterday in Tokyo.

Mme. Chiang Leaves N. Y. for China Soon

NEW YORK, Aug. 17 (AP)—The Chinese news service said, today, Mme. Chiang Kai-Shek, wife of the Chinese president, was expected to return to her land "very soon," probably within a month or so. She is living in the Riverdale section of New York city.

An advice from Chungking, today, said quarters close to the Generalissimo expect Mme. Chiang to return in time to attend the ceremony pformally reestablishing the capital at Nanking, probably on Oct. 10.

WILL WITNESS JAP SURRENDER—Among the high military and naval chiefs who will witness the formal surrender of Japan, will be (l. to r.) Fleet Adm. Chester W. Nimitz, commander-in-chief of the U. S. Pacific Fleet; Adm. Sir Bruce Fraser, Chief of the British Pacific Fleet, and Gen. Carl Spaatz, commanding the U. S. Strategic Air Forces

NURSE PEARL LaFONTAINE HOLDS ABANDONED BABY
Hundreds Ask to Adopt Child Left on Common

1st 'Mr. V' Clue Leads to Maine

Hopes of identifying "Little Mr. Victory," the 6-week-old baby boy, abandoned on Boston Common during the height of Wednesday's celebration, led police toward Portland, Me., today. The Maine clue came when Portland police notified officials here that Patrolman Mark Flaherty had seen a woman, carrying a baby in her arms, boarding an 11:25 a. m. train for Boston at Union Station. Both the woman and the baby were dressed in clothing similar to that described to Boston police, Patrolman Flaherty said.

Lt. John Foley of the Joy st. station left for Portland with another officer to check footprints of the unidentified baby now at City Hospital with footprint records on file at hospitals in the Maine city.

Meanwhile other hospital records throughout Greater Boston and the State were being checked in the first effort in Massachusetts history to identify a person through footprint records.

The plight of the little boy has attracted wide attention and many requests have been received for his adoption.

Officials at City Hospital, where the smiling "Mr. V." is thriving on the loving care of the nursing staff and the special diet provided, received several of the offers. Others were received by police.

Young Mr. V., immaculate in a white dress, pink bonnet and pink booties, was left by the woman, believed to be his mother, with Charles R. Spataro, 16, of Paris st., East Boston. She gave Charles $2 and asked him, he said, to hold the infant while she did an errand for "about 20 minutes."

When she did not return, three Dorchester girls volunteered to share his nursemaid duties, and the police were notified.

Judge Snitches The Last Word

Judge Thomas H. Dowd of Suffolk Superior Court proved today there's one place a woman doesn't always have the last say.

He was hearing a motion brought by Lena Gaunt of Porter st., South End, seeking further hearing by Master Maurice Tobey on action brought over a property dispute.

"What grounds?" queried Judge Dowd.

"I didn't get enough chance to talk," she answered. "The master always was shutting me up. I'm not a lawyer but I know all about the law and I want my rights."

It was here Judge Dowd decided the case had been sufficiently aired and said he would take her request under advisement. And when the petitioner interrupted once more, he announced: "Recess. This is one place a man can get in the last word."

FIRE 2710 HAMBURG NAZIS

HAMBURG, Aug. 17 (AP)—British military government headquarters announced today the purge of Nazi elements from the German administration of Hamburg had resulted in dismissal or arrest of 2710 officials.

Where Cash Went

WASHINGTON, Aug. 17 (AP)—The Commerce Department today invited bids on more surplus property. The item: 74,998 new, silver-plated oyster forks.

Walsh Demands Pearl Harbor Facts

By ERWIN D. SIAS

WASHINGTON, Aug. 17 (INS)—Sen. David I. Walsh (D.) of Massachusetts, chairman of the Senate naval affairs committee, today called upon the Navy Department for a complete record of its investigation into the Japanese sneak attack on Pearl Harbor. In a letter to Sec. of the Navy Forrestal, Walsh also asked that the Navy make recommendations regarding release of its report to the public.

He informed Forrestal there is certain to be a strong demand in Congress to determine who was responsible for the failure of the armed forces to prevent terrific damage in the Japanese air attack on the Pacific base.

"It is requested, therefore," he said, "that the Senate committee on naval affairs be furnished when it reconvenes with a copy of the complete file of investigations made by the Navy Department with reference to the Pearl Harbor disaster, together with your comments and recommendations regarding the release of these to the public."

After the Jap attack on Pearl Harbor, Dec. 7, 1941, which heavily damaged the Pacific fleet and destroyed American air power in that area, R. Adm. H. E. Kimmel, commander of the fleet, and Maj. Gen. Walter Short, commander of ground forces, were relieved from duty.

In a subsequent report, a commission headed by Justice Owen J. Roberts of the Supreme Court criticized both officers, and a court-martial investigation was ordered.

While both the Army and Navy have taken evidence, the court-martial trials were postponed during the war.

Both Kimmel and Short repeatedly have demanded the trials be instituted.

Walsh, in his letter, said that on July 12, 1945, Sen. William Danger (R.) of North Dakota presented to the Senate a petition signed by 15,000 persons from every State in the Union requesting that the results of the investigation of the naval board of inquiry be made public. The petition was referred to the naval affairs committee.

"Furthermore," he wrote Forrestal, "when Congress reconvenes there is certain to be a strong demand from members of the Congress for information, and it will be necessary for me to make some explanation as to the position of the Navy, and the Senate naval affairs committee will be required to take action upon the petition pending before it.

"With the war in Japan ended, the explanation of military expediency which Congress agreed to be desirable while the war was in progress, cannot be seriously urged as a reason for now keeping the matter secret."

During the war, Congress continued the statute of limitations so the officers—or any other held to blame in the disaster—could be court-martialed.

SEN. DAVID I. WALSH

Kimmel Glad; Short Is Silent

NEW YORK, Aug. 17 (INS)—R. Adm. Husband E. Kimmel, commander of the Pacific Fleet at the time of Pearl Harbor, declared today the full facts of the Jap sneak attack couldn't be published any too soon.

"The sooner the facts of Pearl Harbor are made known," said Kimmel when advised the Senate Military Affairs Committee had asked for the Navy's report on the incident, "the better I'll like it."

Adm. Kimmel added he wasn't in a position to discuss the attack for which he still is subject to court-martial.

DALLAS, Tex., Aug. 17 (INS) Maj. Gen. Walter Short of Dallas would not comment today on the request of Sen. Walsh that the Navy give the Senate Naval Affairs Committee a complete record of the investigation of the Jap attack on Pearl Harbor.

Gen. Short, who was commander of ground forces at Pearl Harbor, is with the ordnance department at the Ford motor plant in Dallas.

FRANCE RATIFIES CHARTER

LONDON, Aug. 17 (INS)—Reuter's reported, today, the French government in Paris has ratified the United Nations charter.

2 Gunmen Rob Charlestown Couple of $5000

While noonday throngs passed, a Charlestown restaurant owner and his wife were robbed of $5000 in front of a Boston bank today and then forced to accompany two gruff-voiced bandits to a getaway spot in Charlestown.

The victims were Lawrence McAvoy and his wife, Effie, owners of a restaurant and bar directly across from the Navy Yard gate, who had drawn the money to cash checks for patrons.

They had wrapped the money in brown paper and walked from the First National Bank branch to their car in Canal st. when the holdup men stepped up.

"This is a stickup!" one announced. "Do what you're told and nobody will get hurt."

With that, one man slipped behind the wheel and the other slid into the back seat. The latter cautioned: "You two better close your eyes and keep quiet. I got a gun here and I'll blow your brains out if anybody hollers!"

The McAvoys sat quietly until the bandit-driver reached Union and Lynde sts., Charlestown. There the men jumped out and, after telling the couple to keep quiet, roared off in another auto.

Mr. and Mrs. McAvoy said both men had deep voices, that one was about 48 and the other 26. Both wore dark brown clothing.

Peace Means Tobin's Fishing Trip Is Off

Gov. Tobin has cancelled plans for a fishing vacation in New Brunswick because of the numerous problems resulting from the sudden termination of the war.

The Governor plans to spend a day at a time at his summer home in Scituate or on Cape Cod.

GI ENTERTAINER — Ingrid Bergman, Swedish-born movie star, returned to New York from Europe today aboard an ATC plane after an 8-week tour with a USO camp show in Germany. Larry Adler, harmonica player, and Jack Benny accompanied her. A sentry, quick on the trigger, fired on their car near Stuttgart when they failed to understand his order to halt but no one was hurt.

Elopers Calm Over Jilt

GORHAM, Me., Aug. 17—Norman A. Martin, 21-year-old farmer, and his bride, the former Beverly Rowe, of Bar Mills, daughter of a wealthy dog food manufacturer, declined comment today on reports that they would live in the Westbrook apartment planned and decorated by Miss Elizabeth Furbish, 21, the girl Martin left at the altar to elope with Beverly to South Paris.

That report, however, was common gossip in Westbrook, where Elizabeth, attractive daughter of Mayor H. Ordway Furbish, was left waiting in the Warren Congregational Church before 450 shocked guests.

While the stranded bride—reported to have left for a two weeks' vacation in seclusion—had the sympathy of hundreds of Westbrook residents, Martin appeared unperturbed about the sudden turn in events.

"I'll admit I was a little late in making my choice, but I'm sure now I have the girl I love," he said. "I wasn't engaged. At least, I don't think I was. I thought it was all over."

Martin then went on to explain that he had informed the Furbish family that he wouldn't be there to marry Elizabeth. But the jilted bride's father said Martin's message was very vague and mysterious.

It wasn't until guests had waited at the church until 15 minutes after the appointed hour that the Rev. Roderick A McDonald announced there would be no ceremony.

The elopers were married in South Paris by Trial Justice Rupert Aldrich at noon.

Seemingly the least surprised of any of the principals in the marital mixup was the new Mrs. Martin. She revealed that so far as she was concerned the whole thing was decided on a week ago when, she said, she and Norman had taken their marriage blood tests, as required by law.

"The way things turned out left this town gasping," was the way the sergeant at police headquarters put it.

Boston Seeks Military Gas

Bonus Blanks Arrive 8000

Cancel $100,000,000 In N. E. War Contracts

Cancellation of 1000 contracts, calling for $100,000,000 worth of products in the Boston Ordnance District, as a result of the Japanese surrender, was announced today by Col. H. B. Sheets, commander of Boston Ordnance District, which embraces all of New England.

There was no immediate indication of how many employes would be affected by the cancellation of contracts for munitions, motor and engine parts and other war materials.

In addition, the Army's chemical warfare branch announced that about 200 contracts, involving $50,000,000 to $75,000,000 had been cancelled.

At the Simpson Shipyard in East Boston, contract cancellations caused 2000 workers to be "furloughed," with signs erected reading: "No work until you are called."

Company officials said they were working on a seniority list for prospective reductions in plant personnel.

Even before the announcements of the contract cancellations, many workers returned to their tasks today to learn they had been placed on a day-to-day basis pending expected cut back orders.

Lawrence K. Marshall, president of the Raytheon Mfg. Co., said there would be some dismissals from the concern's 15,000 workers and that some voluntary retirements of men and women employes were expected.

The Lawson Machine & Tool Co., which has four plants in Malden and Melrose, closed its doors today until Sept. 4, affecting 1000 workers.

President Chester M. Lawson said each employe would be given one week's pay and a bonus for production now in progress. He said employes would meet at the Malden Club at 8 a. m., Sept. 4, to discuss plans for future employment.

Quincy is expected to be hard hit by cancellation orders. Work was ordered halted last week on four cruisers under construction and on three others on which building had not yet started.

Some plants, such as the Gillette Safety Razor Co., the Hood Rubber Co. and the Waltham Watch Co., expect no layoffs of workers, figuring they can step almost immediately into civilian production when reconversion comes.

PFC JOHN McDONOUGH AND PFC GENE CRAWFORD
Local Boys Arrive Home From Europe
INP by Lester MacLellan

4 Transports Land 2800 Vets in Hub

More than 2800 veterans who observed V-J Day quietly at sea returned home today aboard four transports arriving at the Army Base.

The John E. Schmeltzer brought home 717, with 56 of them New Englanders, while the Newton D. Baker debarked 723, of whom 33 were New Englanders. There were 66 more New England boys aboard the Esek Hopkins, which brought back 749 more vets.

Another 700 were aboard the transport Walter E. Ranger, last of the day's arrivals, with 16 of them from this area.

All of the boys were a bit sorry that they landed too late to participate in the Victory celebration. The observance at sea included a two-minute period of cheering, which was just about the full program.

Included among the decorated heroes was Lt. Gordon E. Nelson of Waldo st., Dedham, who wears the Purple Heart with three clusters for the four times he was wounded, as wel las the Bronze Star Medal with one cluster.

He suffered one of his wounds at Cassino in the Italian campaign and was wounded again as a member of the "Lost Battalion," trapped by the Germans for days in the Vosgas mountains in France.

One of the few downcast soldiers was PFC Eugene D. Crawford, 21, of Sharon st., Waltham, who arrived on the Schmeltzer minus a pretty Scotch WAAF he married last April 26 in England.

"All I want now is to get out," he said, "and then get my bride back here. The Scotch girls are the finest in the world—at least the one I got is." Crawford served overseas for 20 months.

Another local man who saw similar length of service overseas was Capt. Louis Kaplan of Newton ave., Watertown, a doctor attached to the Eighth Air Force. On D-Day and those that followed he made eight trips to Normandy on LST's, giving medical aid to casualties being brought back to England.

PFC John F. McDonough of East Fifth st., South Boston, was anxious to have a chat with friends in the Boston police department, where he served as a patrolman before joining the Army.

Greater Boston men arriving home on the transport Newton D. Baker included the following:

Capt. Harold W. Crowell of Sevinor rd., Marblehead; Lt. Francis G. Kelley of Braden st., Roslindale; Sgt. Raymond G. Dahl of Harris st., Revere; Sgt. Harold C. Robinson of Garrison rd., Brookline; Cpl. Harold G. Beecher of Carlisle st., Cambridge; Cpl. Herbert R. Dullman of Humbolt ave., Roxbury; PFC Eugene L. Christie of Broadway, Everett; Sgt. Edward Duran of Commonwealth ave., Back Bay; Sgt. William T. Godfrey of Peacevale rd., Boston; Sgt. Clifford Blodgett of Minden st., Roxbury; Sgt. Steven Stepanian of Grove st., Belmont; Sgt. Carl Swanson of Glendale st., Everett; Cpl. William A. Blunden of Clifford st., Roxbury; Sgt. George E. Blum of Mindero st., Roxbury; Sgt. Frank J. Laguaglia of Saratoga st., East Boston; Sgt. William F. McLaughlin of Pearson rd., Somerville, and Sgt. Thaddeus Balukonis of River st., Lynn.

Greater Boston men on the transport Ranger were:

PFC Charles F. O'Brien of Juliette st., Dorchester, and PFC Joseph Salvucci of Center st., Quincy.

Local men on board the transport Hopkins were:

Maj. Paul Firestone of Dorchester; Capt. Robert L. Littlehale, Jr., of Belmont; Lt. James F. Connolly of Medford; Lt. Gordon E. Nelson of Dedham; Sgt. David M. Lyons of Boston; Sgt. Joseph B. Silverio of Beverly; Sgt. Bruno F. Vons of Boston; Sgt. John J. Donovan of Boston; Sgt. Harold L. Hilton of Somerville; Sgt. Raymond Houle of Boston; Sgt. Murray R. Sherman of Brookline; Sgt. Forest Cornwall of Boston; T4 James A. O'Donnell of Boston; Cpl. James T. Ander of Brookline; Cpl. Patrick J. Ferris of Boston; T5 William L. Davis of Everett; T5 Joseph Mancuso of Boston; T5 Daniel McInnis of Chelsea; PFC Joseph J. Cotter of Boston; PFC Michael Masi of Somerville; PFC Leo O'Toole of Somerville; PFC Francis J. Rooney of Lynn; PFC Neil Simmons of Somerville; PFC Warren F. Sweeney of East Boston; Pvt. Daniel J. Duggan of Boston, and Pvt. Gordon C. Kilpatrick of Lynn.

Returning on the transport John E. Schmeltzer were the following Greater Boston men:

T5 Arthur Spingle of Bolton st., Somerville; PFC Alphonsus O'Connell of Spring ave., Boston; Sgt. Grant L. Brown of St. Denis st., Medford; Sgt. Victor S. Kolikof of Walnut ave., Revere; Cpl. Bernard G. Bowers of Theodore Parker rd., West Roxbury; Cpl. Albert J. Queenan of Pleasant st., Woburn; PFC Eugene D. Crawford of Shannon st., Waltham, and PFC John F. McDonough of East Fifth st., South Boston.

U-Boat Gives Up To Argentina

MAR DEL PLATA, Argentine, Aug. 17 (AP)—A German submarine surrendered here today to Argentine naval authorities.

The 600-ton craft carried the number U-977 and a complement of 32.

The Navy ministry said the sub was sighted by patrol boats off this Argentine submarine base at 9:20 a. m. this morning—102 days after Germany signed unconditional surrender.

250 Stranded on Nantucket Ship

NEW BEDFORD, Aug. 17—Breaking down with engine trouble off Butler's flat near Ft. Rodman in New Bedford harbor, the steamer Nantucket with 250 passengers aboard, was stranded for several hours today before being towed into port.

The vessel, owned by the New England Steamboat Co., was due at New Bedford at 11:15 a. m. from Nantucket.

The ship was expected to be out of service for at least a week, further handicapping the line which has been operating with only two boats on Nantucket-Martha's Vineyard runs.

Jailed for Robbing Foster Parents

Charged with stealing the $4500 life savings of the couple who adopted him when his parents died, James Tortorici, 31, was found guilty in Municipal Court today and sentenced to two years in the house of correction.

Already under a State prison sentence for armed robbery, he was ordered by Chief Justice Davis B. Keniston to begin the jail term at the expiration of the current confinement.

Special Officer John T. Hormel testified Tortorici, recently paroled from State Prison, was seen entering the home of Mr. and Mrs. Dominic Toscano in Unity st., North End.

He was apprehended in Chicago on July 24, and returned to State Prison for violation of parole.

LONDON WEDDING—Two English sisters become the brides of two American sailors at St. John's Church, London. Joan Margaret Fitzjames became the bride of BM 1c Carl Nier of Cleyton, N. Y. (left), while her sister, Lillian, became the bride of BM 2c Joseph Mosca of Pleasant st., Dorchester. Both men have been overseas 18 months, serving in London for the past year. Navy Photo

Tobin Urged to Push El Finance Probe

Spearheading the wave of protest over a proposed increase in Boston Elevated zone fares from 5 to 7½ cents, Rep. Philip McMorrow of Dorchester called on Governor Tobin today to launch a complete investigation of the operation of the line. "If ever there was a time when the financial affairs of the Boston Elevated should be investigated, it is now," McMorrow declared, as he prepared to confer with the Governor.

"Over a period of years, under public control, the taxpayers of the Metropolitan area have paid out $18,633,379.27 in deficits of the road and $3,652,574.17 is held up in litigation in the Supreme Court as a result of legal action by the Attorney-General. This makes a grand total of $22,285,953.44.

"Despite this vast deficit, there has never been an accounting by any agency of the Commonwealth. Is this good business? Instead of being protected, the taxpayers are being kept in the dark. How long would private industry put up with that sort of thing."

McMorrow charged that after the House recently passed a measure which would permit the State Auditor to go over the books of the Elevated by an overwhelming vote, a "strong Elevated lobby" killed the measure by a single vote in the Senate.

McMorrow declared that in 1944 the Elevated paid 28 of its top officials salaries totaling $263,000, despite the fact the line had a deficit of $430,000.

"Officials of the Elevated constantly harp on the salary increases given to rank and file employes but they refrain from mentioning the big increases given to top ranking officials or the creation of new highly paid positions," he added.

"The trustees of the Elevated, who are charged with its operation and are accountable to the Governor, receive only $5000 a year in salary while officers of the corporation receive from two to six times as much. Is this common sense?

"Anyone would think from the annual report that the Elevated was operating at a big profit."

State Auditor Thomas J. Buckley also plans to renew his fight to obtain authority to audit the books of the Elevated.

A demand for public ownership of the road was made by former Rep. Alexander F. Sullivan, of East Boston, who urged Gov. Tobin to call a special session of the Legislature to pass a public ownership bill.

Rep. David M. Cleary, Charlestown, urged investigation by the Public Utilities Commission of the proposed fare increase.

LEAVING EUROPE

The Queen Mary sailed today (Friday) from Southampton, Eng., for the United States with 15,000 troops for the 30th Division.

The Army announced from Paris that the Fifth and 14th Armored divisions had been alerted for return to the States, and that the Third and 17th divisions and the 16th Corps would be sent home during September.

The transport West Point left Naples yesterday with the 85th (Custer) Division 2500 members of the 34th (Red Bull) Division and elements of the 10th Mountain and 91st (Powder River) divisions.

Boston Seeks Military Gas

Rapid draining of available gasoline supplies by a wave of unrestricted buying brought an appeal today from Cong. John W. McCormack to the Secretaries of War and the Navy to release large quantieies of the fuel stored here for military requirements.

The heavy demand resulting from the sudden end of gasoline rationing caught the industry unprepared, with the area's major outlets for civilian supplies geared only for handling the stocks available under ration regulations.

Leaders of the industry estimated that at least 10 days would be required to obtain government release of tankers and their arrivals here with sufficient supplies from the Gulf area.

There was no indication of an early lifting of the 35-mile per hour speed limit established under emergency powers by former Gov. Saltonstall.

Motor Vehicle Registrar Rudolph King pointed out today that the order was imposed originally to save rubber and not gasoline and that most motorists were still using old and well worn tires, which would not hold up under increased speeds.

In his telegram to Secretary of War Stimson and Secretary of the Navy Forrestal, Cong. McCormack pointed out that the present situation in the Greater Boston area was acute and that there were insufficient supplies on hand to take care of buses, trucks and other essential transportation.

He urged release of large quantities stored here for Army and Navy use as a means of alleviating the shortage.

Frederick H. Moore, executive secretary of the Massachusetts Retail Gasoline Dealers' Ass'n, said most local stations were drained completely and described the situation as "extremely poor." He appealed to individuals to buy only in limited quantities for the next few days to assure a fair distribution of available supplies.

"The situation locally has been critical since last Friday," he said. "We have no idea when tankers from the Gulf will arrive, and even then we must solve the problem of transporting the bulk supplies to dealers, with only a limited supply of equipment at our disposal.

"If the public co-operates in limiting their purchases, we can probably eliminate a gasoline drouth in this area, as we are fairly certain that adequate supplies will be on hand within eight to 10 days."

State police reported auto traffic back to pre-war levels but with no serious accidents yet reported, while railroad officials said the traffic they were handling was "no more than what might be expected."

Traffic so increased in downtown Boston that Mayor Kerrigan appealed to motorists to park their cars in the suburbs. He said the streets were choked and every inch of parking space occupied.

Is It a Gas Jag?

TRINIDAD, Col., Aug. 17 (AP)—A motorist drove into a filling station and exultantly told an attendant to "fill 'er up."

The attendant complied. As the motorist drove away, the full gas tank, unused to the strain, dropped to the pavement.

DENVER, Col., Aug. 17 (AP)—Add notes on silly behavior: A thief broke into a filling station today and took gasoline coupons for 60 gallons.

Mother Deserter Despite 2 A. M. Call on Children

Attempting to visit her two children at 2 a. m. accompanied by a "boy friend" was not considered sufficient defense against a charge of deserting them by Municipal Judge Elijah Adlow today and he found Mrs. Josephine Camponella, 29, Back Bay waitress, guilty and placed her on probation.

Her mother, Mrs. Anna Mislouski, testified the boys, Robert, 3, and Lawrence, 4, were left with her in May. She said the boys' father contributed to their support.

Mrs. Camponella, estranged from her husband, said she was 'locked out" by her mather when she sought to visit the boys.

To that testimony, Mrs. Mislouski replied that her daughter arrived at 2 a. m. and had a "boy friend" with her.

"I didn't think it was proper so I didn't let her in," Mrs. Mislouski testified.

Italy Flier Free Of U. S. Charges

Freed by U. S. Commr. William C. Rogers of charges of impersonating a U. S. Army sergeant and taking Army pay unlawfully, Enrico DiNino, 22, former Italian Air Force flier, was confronted today with the possibility that he might be deported to his native Italy.

DiNino, who claimed he offered his services to the U. S. Air Force after the surrender of Italy in 1943, said he assumed the name of Henry Michman to protect himself from Gestapo wrath when he was shot down during a raid by American forces on Athens.

Repatriated from a prison camp at Memel, he arrived in New York last June and was sent to Ft. Devens, where he continued to use the name Michman and to draw the pay of a staff sergeant.

DiNino disclosed that he had been married for nine days to the former Mary Maldero, 19, whose mother, Mrs. Stella Maldero, furnished $5000 bail for him when he was first arrested last month.

Haul Submarine Net From Frisco Bay

SAN FRANCISCO, Aug. 17 (AP)—Off the floor of San Francisco bay today came the Navy's hand-made, 6000-ton, three and a half mile long antisubmarine net which has silently guarded the harbor from enemy undersea craft since December, 1941.

Under constant pressure from the bay's five-knot current, the net at various times snared whales, derelict boats and a mountainous quantity of floating timber and debris.

Up to 550 ships a week have passed through its three gates.

More Jobless Seek Benefits

Definite increase in the number of persons filing applications for unemployment compensation was reported today by Robert E. Marshall, director of the State Division of Employment Security.

Marshall said a larger number of applicants were noted both in the main office at 9 Beacon st. and in the 75 full-time and part-time branch offices throughout the State.

Continued increases in the number of applications, he added, might make it necessary to put many of the division's 40 part-time offices on a full-time basis.

Marshall said the State's unemployment fund ha dreached an all-time high of 212,000,000.

By action of the last Legislature, the maximum benefits under the plan have been increased from 18 to $21 weekly and the period of time in which compensation ma ybe drawn extended from 20 to 23 weeks.

POUR WINE FOR CELEBRATORS—Wine is poured for North End celebrators by Mrs. Michelena Santilli, Clark st. (left), and Mrs. Antonette Maniscallo, mothers of servicemen, to toast early release of their sons from military service. INP by Morris Ostroff

Bonus Blanks Arrive, 8000 Mailed to Vets

Application blanks for the soldiers' bonus to be paid Bay State veterans—a $100 nest egg—today were received at the Ashburton pl. headquarters and 8000 of them mailed immediately to discharged veterans who had applied early.

About 100,000 of the 600,000 to be printed were received and now are available, with clerks on hand to aid in making them out.

State Treasurer John Hurley also sent batches to Legion and VFW headquarters, as well as to the Red Cross and clubs where vetrans gather.

First actual payments are expected to be made by Monday, just as soon as applicants can be certified.

Hurley explained that when the applications are received back they must be checked with local authorities, the office of the adjutant general or Army and Navy headquarters.

BERLIN TO LOSE GOLD

BERLIN, Aug. 17 (AP)—Berlin residents were ordered today to surrender all their gold, silver and other treasures within 10 days. The Allied kommandantur, under present chairmanship of American Maj. Gen. Floyd Parks, did not announce the reason.

Styles Bringing War?

Peace as Long as Milady Stays Feminine

PEACE AND PROSPERITY

LONDON, Aug. 17 (AP)—Liddel Hart, military critic, said in the Daily Mail today "the postwar style of women's clothes may spell the fate of this and every other civilized nation."

"It may show whether the future will bring another great upheaval or a return to peaceful stability," he wrote.

Hart cited style trends back to the 18th Century to support his argument that "women appear to be especially sensitive to the atmosphere of the time and the spirit which determine its political trend."

Women's dress reflects this sensitiveness, he said, in the general outline of their fashions rather than in the details.

His theory, he said, is thus:

There is a normal outline accentuating the natural shape of a woman—width of hip and slenderness of waist, to which women seem to return when the human temper returns to normal. Witness the stiff bodices, tight waists and hoopskirts of the tranquil early 18th Century, the billowing skirts, slim waists and full bosoms of the late 19th Century era of peace and prosperity.

But—when women beign to flatten their figures and wear exaggerated hats, there is trouble brewing.

Hart pointed to the elaborate headdresses and vertical fashion lines preceding the French Revolution, and the swing back from curves to straight lines before 1914 and again in the 1920's.

"Curves signify contentment: the vertical line expresses discontent," he concluded.

He confessed puzzlement about the style future. Recent Paris showings of high hats and short skirts "are obviously danger signs," he said, but on the other hand there is hope in the trend toward fullness of skirts and neat waists.

THIS CAUSES TROUBLE

Sabu, Medal Loaded, Is Back From Wars

SAN PEDRO, Cal., Aug. 17 (AP)—Staff Sgt. Sabu Bastagir, 21, wearing the ribbons of the Distinguished Flying Cross, the Air Medal with three Oak Leaf Clusters, two Presidential unit citations and six battle stars, reported today at the Ft. MacArthur separation center preparatory to returning to the movies.

The star of "Elephant Boy" and half a dozen other pictures returned last month from the Southwest Pacific, where he flew 42 missions as ball turret gunner on a B-24 Liberator and accumulated 427 combat hours.

Don't Stop Saving Scrap Paper, Tin

There will be no immediate relaxation of waste paper salvage as a result of the war's end, WPB officials said today in urging public co-operation in next week's salvage drive in Boston.

Young Israel to Hold Peace Services

In compliance with President Truman's request that the people turn to prayer as a fitting climax of the two-day celebration of the war's end, the Young Israel of Malden will hold special services tomorrow at 8:30 a. m. in their temple at 46 Holyoke st.

Emmanuel Stein, president of the Young Israel group, will conduct the services, assisted by PFC James Cohen, a past president, just returned from overseas duty with the Army.

End of Meat Rationing Seen By Anderson in Near Future

By OVID A. MARTIN

WASHINGTON, Aug. 17 (AP) —Secretary of Agriculture Anderson said today he believes it may be possible to terminate meat rationing in the "very near future" —possibly as early as September.

In an exclusive interview, he said an examination of demand and supply prospects as of today indicated supplies not needed for military and other non-civilian requirements are rising sharply.

Anderson said latest figures indicate civilian meat supplies for the October-December quarter will be at the annual per capita rate of 145 pounds, compared with less than 120 pounds so far this year.

The supply will be even greater, he said, should there be an "excessively heavy" run of cattle to market this fall.

Improvement in the meat situation, he said, reflects the cut-back in military needs, uncertainty as to whether financial arrangements will be made for sending large quantities of meat to war-liberated Europe and a peace-hastened run of cattle to market.

Packers See No Big Increase in Meat Soon

CHICAGO, Aug. 17 (AP)—The civilian meat supply will not be appreciably increased immediately because of the end of the war, the American Meat Institute predicted today.

Toward the end of the year, however, lessened Army requirements and the seasonal rise in the market supply of livestock should be reflected in more meat for civilians, the institute reported. Civilian demand may also drop somewhat by that time, it asserted.

8 WINTER ST., SUITE 404

LIBERTY 6983 4th Floor

1000 Feast Free

SPRINGFIELD, Ill., Aug. 17 (AP)—More than a thousand persons dined "on the house" at Graham's restaurant yesterday as the proprietors fulfilled a pledge made early in the war.

Breakfast, luncheon and dinner were served by the owners, Paul Graham and George Senger, to all comers.

Shortly after Pearl Harbor Graham and Senger posted an employes' honor roll which they signed off with "and when the war is over the checks will be on us."

Hub Has Bread Again, But Fish Vanishing Fast

Getting back to normal after having run out of most of their supplies during the two-day victory delirium, Boston food stores today found the bread famine ended but another in fish rapidly developing for the week-end.

Bakeries worked full blast last night to make up for lost time and each store is now well supplied with bread. Milk deliveries are also again on a normal basis, but fish, the traditional substitute for hard-to-get meats, is vanishing fast.

But offsetting the fish famine is a good supply of eggs, slightly increased beef shipments and abundance of fresh fruits and vegetables dumped on the market this morning by native farmers fearful of spoilage due to the two-day halt.

Lamb, veal and pork are still short but stores have more beef today and a slight increase in poultry. But packers are warning that greater shortages of meats will be felt next week as a result of the closing down for two days of big packing houses in the West.

In now point-free canned goods all stores are well stocked with such items as green beans, asparagus, corn and peas, but canned tomatoes are very short, as are canned peaches, pears and pineapple.

Malcolm McCabe, executive director of the Massachusetts Grocers' Ass'n, reports supplies of canned apricots, plums, apple sauce and fruit juices will hold out if the public does not indulge in buying sprees.

Butter supplies are ample for the week-end, and for the first time in a long while margarine can be had in almost every store.

Prayer Service In White House

WASHINGTON, Aug. 17 (AP) —President Truman and his official family will lead the nation in the Aug. 19 day of prayer, for which the Chief Executive called by proclamation yesterday.

A non-denominational prayer and thanksgiving-for-peace service will be held at 10 a. m. Sunday in the East Room of the White House.

The service will be conducted by the chiefs of chaplains of the armed forces, Chaplain Luther D. Daniel of the Army and Chaplain William N. Thomas of the Navy.

The President and his family, the White House staff, the Supreme Court, the cabinet and congressional leaders will attend.

A-Bomb Test on Battleship Looms

WASHINGTON, Aug. 17 (INS) —The Navy may try to sink a battleship with an atomic bomb in a spectacular postwar test.

Sen. Walsh (D.) of Massachusetts, chairman of the Senate naval affairs committee, said today he expects the atomic bomb to be used by the Navy to determine its effect on warships, especially the effect of near misses.

"The Navy could use an obsolete vessel in the test," said Walsh. "It is being discussed."

British Churchmen Told Birth Control Necessary

Boston American, Aug. 17—7

OXFORD, England, Aug. 17 (AP)—The Conference of Modern Churchmen was told by the Rev. J. F. Hinton today that contraceptives "are necessary in family and social life" and that the church should stipulate conditions for their use in shaping a "proper" eugenics policy.

Hinton, vicar of Westbury, said a eugenics plan based on the use of birth control devices now was "most certainly being shaped by expediency" and added that the church should "think and speak more decisively regarding scientific contraception."

"To achieve and maintain a higher standard of living generally means limiting the number of children," he said. "Today, a man who has a child is rather expected to explain himself than to be congratulated."

The Rev. Dorothea Belfield of London said artificial 'nsemination was likely to be practiced a good deal more in the future and that "characteristics which might be transmitted through an unknown donor might have the most grievous results."

U. S. to Use Tokyo as Base In Pacific, Arnold Says

By JOSEPH A. BORI

WASHINGTON, Aug. 17 (INS)—Gen. H. H. Arnold, commander of the Army Air Forces, disclosed today that the United States will use Tokyo as a defensivbase to insure future peace in the Far East.

Arnold said this cntry also must control Honolut Midway, Wake, Marcus and Ti.

This was the firstention by a high official that a Jap-held American island of Ike and the enemy islands of Marcus and Truk, as well as Tjo, would be used as bases.

He also discloseat the United States has develo a gigantic new Superbomb greater than the B-29, with inge of more than 5000 mile and predicted new weapons of "Buck Rogers variety" for thatwar world.

Arnold, revea that he planned soon to shut as chief of the Army Aices, declined to give a specifite.

The gener ressing the importance of Ican research to develop weapo fantastic and terrible that gressor nations would fear hurt another conflict, refused discuss in detail the powerfu bomber.

He added t America also is developing ns types of buzz bomb and ro weapons which have explosiveads that will make them amatically explode on reaction heat, light and metal.

Arnold forew the day when long-range bombers with jet propulsion engines would fly automatically without crews vast distances to drop their missiles on enemy targets.

Veterans' Friend

Q—Does a co-owner of a war bond have to be a member of the soldier's family? A. L., Waterbury, Ct.

A—No, the soldier may designate any person as co-owner.

Q—I have been honorably discharged from the service recently and would like to continue my National Service Life Insurance. To whom shall I make payment? V. S., Winchester, Mass.

A—Make check or money order payable to Treasurer of the United States and mail to Collections Sub-division, Veterans Administration, Washington, D. C. Give your full name, present address, insurance certificate number and Army serial number.

Q—What is the Medal of Honor awarded for? C. S. H., Brookline, Mass.

A—The Medal of Honor is awarded in the name of Congress to each person who, while an officer, non-commissioned officer, or private, in the Army, in action involving actual conflict with an enemy, distinguishes himself conspicuously by gallantry and intrepidity at the risk of his life and above and beyond the call of duty.

Q—Do a wife and two children receive more from a soldier's insurance, if he is killed in action, than if payment is made only for a wife? L. P., Roxbury.

A—No. Payment is made to the designated beneficiary, the amount paid is governed by the age of the beneficiary and the amount of insurance carried without consideration of the number of dependents.

Q—What is meant by total disability? V. S. E., Malden.

A—Total disability, as referred to in the National Service Life insurance policy, is any impairment of mind or body which continuously renders it impossible for the insured to follow any substantially gainful occupation.

Q—Will the Government furnish headstones for a soldier's grave? MEM, Medford.

A—Yes. Upon application to the Quartermaster General, U. S. A., Washington, D. C., headstone will be furnished for the unmarked grave of any individual who served with the Federal armed forces and whose last service terminated honorably.

Q—My husband is a Prisoner of war. Will my family allowance payments continue? O. S., Boston.

A—Yes, payments will continue.

Q—Is the wife of an aviation cadet entitled to family allowance? O. R. S., Methuen.

A—Yes. Under the amendment to Servicemen's Dependents Allowance Act, effective November, 1943, dependents of an aviation cadet are eligible.

Veterans to Get Federal Jobs

Vacancies in federal government jobs will be filled only by returning veterans or by those who have been separated from other positions in federal service.

The U. S. Civil Service Commission made this announcement today in stating that no new applications for employment would be received.

Vets' Old Public Jobs Open for 2 Years

World War II veterans will have two years from the date of discharge in which to return to their permanent state, city or town Civil Service positions, the State Civil Service Department said today.

There are now 4408 employes on military leave in Massachusetts, the department added.

Peace

Continued From Page 2

sian spearhead, although previously Tokyo had reported it might require six days for the "cease fire" order to reach the front lines in Manchuria and adjacent areas.

It now seemed likely the Manila conference, at which an Imperial government representative and three military chieftains will be told the surrender condition, would be delayed until next week.

Emperor Hirohito strengthened his command to the armed forces to lay down their arms today and sent urgent messages to MacArthur asking (1) the Russians halt their Manchuria offensive, (2) Allied forces "refrain from approaching" Japan proper temporarily and (3) more instructions for the already delayed preliminary Manila conference.

Hirohito backed up his order to cease fire with an Imperial rescript, which Radio Tokyo said "called upon the army and navy to lay down their arms." The rescript carries more weight with the Japanese than his previous order.

Japan said her planes inflicted some damage in attacks on a dozen Allied transports yesterday because they "approached extremely near the coast of Kochi, Shikoku."

These startling developments were the latest to come out of long distance wireless negotiations in which the Japanese already have made it necessary to put off the Manila meeting, scheduled for today, until at least some time next week.

The messages, sent on the frequency designated by MacArthur for official communications, were listed as radiograms "three, four and five."

Number five "urgently requested" MacArthur to "take proper steps to bring about immediate cessation of the Soviet offensive."

The Tokyo station claimed the planes attacked four hours before Emperor Hirohito issued orders at 4 p. m. yesterday Tokyo time (3 a. m. Thursday, Eastern War Time) that all Japanese forces cease hostilities.

"It takes some time for the said order to reach the front line and produce full effect," Tokyo said, then added:

"It is earnestly requested that the Allied forces will refrain from approaching the islands of Japan proper until the order will have been fully effected."

PROMOTED — Peter DiSessa, son of Police Capt. Louis DiSessa of the Warren ave. station, was recently made a lieutenant and executive officer of a LST.

58 Dead in Oslo Arms Ship Blast

OSLO, Aug. 17 (AP)—At least 58 persons were killed and hundreds of others injured today when a German ammunition ship on an Oslo quayside exploded.

The blast caused extensive damage in the dock region and shook the entire city. Windows in homes and business establishments were shattered in an area of more than a square mile.

Blasted bodies still were being recovered by midafternoon and civilian and military personnel were treating scores of injured civilians in a wide area.

Many American and British personnel were among the injured, the port commandant said.

ROTTERDAM, Aug. 17 (AP)—At least five spectators were killed and 71 others injured last night when a skyrocket fired in Rotterdam's victory celebration landed in a munitions case aboard a British warship moored here. There were casualties also among the warship's personnel.

Japs on Luzon In Counter Blow

MANILA, Aug. 17 (INS)—Fighting on Luzon continued today.

The enemy attack took place in mountainous terrain in the northern sector of the island and a broadcast from a 32d division outpost brought the terse statement:

"Yes, the war is over all over these bloody hills out here."

Cub reconnaissance planes dropped 100,000 leaflets telling the enemy troops of peace and instructing them to surrender.

Truman Bids United War Staffs to Dine

WASHINGTON, Aug. 17 (AP)—President Truman invited the combined chiefs of staff to dinner in the White House tonight. This is the staff set up by American and British armed services for the joint war effore in all theaters.

Invited were representatives of United Kingdom, France, China, Australia, New Zealand, Canada and the Netherlands, in addition to Secretary of State Byrnes, War Secretary Stimson, and Navy Secretary Forrestal.

Chinese Reds Decline Parley

By SPENCER MOOSA

CHUNGKING, Aug. 17 (AP)—It was reliably reported here today that the Communist leader Mao Tze-Tung had declined to discuss a settlement of differences between the Chungking government and the Communists.

It was understood that Maj Gen. Patrick J. Hurley, U S ambassador to China, at whose suggestion Chiang was reported to have extended the invitation, would fly to Yenan to urge Mao to reconsider, and that if the Communist leader changed his mind, Hurley would accompany him back to Chungking.

Japs at Last Quit in China

CHUNGKING, Aug. 17 (AP)—War zone commanders of the Chinese Army issued orders to Jap troops in their areas today to cease military activities immediately and await further instructions.

Domei in a Tokyo broadcast said Lt. Gen. Yasuji Okamura, commander-in-chief of Jap expeditionary forces in China, had sent a note to Generalissimo Chiang Kai-shek demanding Chinese forces "observe thoroughly the cessation of hostilities immediately."

DESTROYER TO JOIN NAVY

The new 2200-ton destroyer USS Ernest G. Small, named in honor of the late Rear Adm Small, who formerly commanded the USS Salt Lake City, will be commissioned next Tuesday at the Boston Navy Yard.

Guam Jap PWs Hunt Other Nips

GUAM, Aug. 17 (AP)—Japanese prisoners of war are hunting other Japanese on the island.

Marine Maj. Gen. Henry L. Larsen, island commander, announced today a large group of the prisoners are free under safe conduct passes to round up Nip stragglers believed to number more than 200.

The "free" Japanese are under leadership of a Nip field officer who volunteered to order all troops at large to surrender in the name of the Emperor.

This experiment may prove useful elsewhere in the Pacific where thousands of enemy troops present a sizeable problem to occupation of various island bases.

New Zealand Japs Attempt No Truce

WELLINGTON, N. Z., Aug. 17 (AP)—Japanese in the Bougainville sector up to a late hour Wednesday made no move toward surrender, an official war correspondent with the Royal New Zealand Air Force reported.

Leaflets instructing Japanese surrender envoys to wade across the bitterly-contested Mivo river waving a white flag have been ignored. After a surrender broadcast several clashes occurred and 12 out of 60 enemy troops attacking a native patrol were killed.

A New York & New Haven Railroad Co. Locomotive in 1870

From photograph courtesy New York, New Haven & Hartford Railroad Co.

IN 1870

when Haffenreffer & Co., Inc., was founded, the railroad was still in its infancy as compared with its operations today. At that time through train service between Boston and New York had not yet been established. It was not available until 1889.

IN 1945

a through train trip from Boston to New York is made almost as casually as a ride on a local street car. Today, the great New York, New Haven & Hartford Railroad, using the finest modern equipment, operates a departure schedule of thirty-eight trains daily between these two important cities. Haffenreffer & Co., Inc., brewers of PICKWICK ALE, have over the years also shown a constant development to occupy a position as one of America's great breweries.

SEVENTY-FIFTH ANNIVERSARY YEAR

HAFFENREFFER & CO., Inc., Boston, Mass., BREWERS SINCE 1870

Warns Others May Split Atom

PITTSBURGH, Pa., Aug. 17—Warning that the Anglo-American monopoly on use of atomic energy will not last long, Dr. Edward U. Condon, associate director of the Westinghouse Research Laboratories, today urged Americans to be wary of developing a "Maginot Line mentality" of over-confidence.

"What we can do in three years others can do in perhaps five or six years," he declared. "It is conceivable for example, a small group of Nazi scientists, working in some remote haven, may find a way to do this thing with inexpensive and inconspicuous equipment."

He said "smug complacency" was dangerous because "we do not know what progress the Japs have made."

Dr. Condon, vice-president of the American Physical Society, called for establishment of a world order in which the weapon "will become man's most powerful servant."

"If we fail to create such a world order we must consider the horrible prospect of man's total annihilation," he declared. "The alternative to world peace is—death."

3 More Join Postwar Board

Completing the membership of the Massachusetts Commission on Postwar Problems, Gov. Tobin today appointed two Greater Boston men and a Hopkinton woman to the group which will survey the State's economic re[illegible].

Those named are Municipal Judge Jacob J. Kaplan of Boston, Frank W. Simmons of West Medford and Miss Adelaide L. Fitzgerald, secretary of the State American Legion auxiliary.

Twelve others were previously appointed to the commission. It will report to the Legislature by Dec. 5, with recommendations for the best use of the State's resources to provide jobs for veterans.

Gun Trio Loots Army Air Base

SEEKONK, Aug. 17—Holding a 72-year-old watchman at bay with .45 pistols, three bandits today ransacked the office of the Seekonk Army Air Base and escaped with $200 cash after scattering secret military papers on the floor.

William McDowell of Rumstick Point, Barrington, R. I., said the trio told him they were Army veterans "and would kill me if I interfered." He was locked in a closet while the men searched desks and files.

POLIO EPIDEMIC SPREADS

ROCKFORD, Ill., Aug. 17 (INS)—Four new cases of infantile paralysis and one additional death were reported today in Rockford and surrounding communities, bringing the number of cases to 120 and the death toll to 15.

FALSE TEETH

With More Comfort

FASTEETH, a pleasant alkaline (non-acid) powder, holds false teeth more firmly. To eat and talk in more comfort, just sprinkle a little FASTEETH on your plates. No gummy, gooey, pasty taste or feeling. Checks "plate odor" (denture breath). Get FASTEETH at any drug store.

Worker on A-Bomb Got So Blue, Hoped It Would Fail

SOUTHBRIDGE, Aug. 17 (AP)—A scientist who helped develop the atomic bomb said today, with permission of the War Department, he became so depressed over the possibilities of the projectile he hoped its eventual use "would fail."

Dr. E. D. Tillyer and Dr. Alexis G. Pincus, research scientists of the American Optical Co., disclosed today they kept their work secret even from their wives for the past two and a half years.

"Every few months," Dr. Tillyer said, "I would be overcome by depression. My wife couldn't imagine what was wrong, but as realization of what the atomic bomb would mean became clearer wit htime, I would wish nobody had ever thought of it and that efforts to develop it would fail."

Dr. Pincus said there was no denying the atomic bomb was "a terible weapon," but that if it had not been discovered by American and British scientists, researchers of some other nation eventually would have hit on the formula.

Soldier Who Killed 9 PWs Found Insane

FORT DOUGLAS, U. Aug. 17 (AP)—A U. S. Army private who mowed down 28 German prisoners of war with a machine gun, has been found mentally unbalanced, Lt. Col. Eugene D. Mullins, Ninth Service Command public relations officer, said today.

Medical officers reached this conclusion after several weeks' observation of the soldier, Pvt. Clarence V. Bertucci, 23, of New Orleans. Col. Mullins said the usual procedure would be to discharge Bertucci from the service and make him a charge of the Veterans Administration.

COMING SOON...

THE FINEST GASOLINE EVER SOLD AT THE ESSO SIGN!

Before long, Esso Regular and Esso Extra will be on their way back—*Better than ever!*

During the war, our country has needed astronomic quantities of powerful super 100 Octane aviation gasoline (that's why all automobile gasoline has been of reduced quality). . . . We and our affiliates were assigned the job of becoming the world's largest producer of that magnificent 100 Octane product. In doing this job, we built new plants, developed new refining methods and acquired new "know-how" that will soon pay dividends to America's car owners . . . Shortly all of these facilities will be at work for you—producing by far the finest automobile gasoline we have ever made! And that's saying a lot—because before the war, Esso Extra was the largest selling premium gasoline from Maine to Louisiana.

It probably will be a little while before your Esso dealer can supply you with this new gasoline. Meanwhile we will keep you posted. Keep your eye peeled for further information regarding this extraordinarily fine new motor fuel.

WHY QUIT OUR OWN?

WITH A NEW WORLD in the making, our only living ex-President, Herbert C. Hoover, in an address at Long Beach, Cal., rendered a magnificent service to his fellow countrymen.

In the face of the current ideological Tower of Babel, where various brands of collectivism are propagandized, Mr. Hoover uttered these noble and inspiring words:

"America should again proclaim our faith. We should program our resolution to hold it. We should cease to apologize for it. Our first postwar purpose should be to restore it."

Here is a program on which patriotic citizens, whether Lincoln Republicans or Jeffersonian Democrats, can join hands.

In the face of the European trend toward collectivism, whether of the Communist or Socialist variety, it is well to reaffirm that the American System IS THE PROGRESSIVE WAY OF LIFE.

PROPAGANDISTS of slave type of economies will gratuitously slur Mr. Hoover as a reactionary, but loyal Americans will know that our free system, which respects the dignity of the individual, has proved to be the most productive.

In peace our creative system, in which human talent linked manpower with better machinery and mechanical energy, produced the highest standard of living that the world has ever known.

In time of war, this same individualistic system was transformed into the most powerful fighting instrument ever recorded in the history of man.

As J. A. Krug, chairman of the War Production Board, has disclosed, this country, with but 6 per cent of the world's population and less than 7 per cent of the world's land area, produced in 1944, 45 per cent of all the munitions turned out by BOTH THE AXIS AND THE UNITED NATIONS.

That figure measures the relative economic position of the United States vis-a-vis the rest of the world, and justifies President Truman's observation that we are the strongest nation in the world.

IN THE LIGHT of the record, it behooves Americans to perpetuate this successful system and not dilute it or weaken it with Marxian poisons propagated in countries weaker and less productive than our own.

In the circumstances, Mr. Hoover, on his 71st birthday, significantly admonished:

"You and I must not be marked as the generation who surrendered the heritage of America."

Mr. Hoover defended the American system, not only on the practical ground that it was strong and eminently successful, but also on the spiritual ground that it was best adapted to the needs of the human personality.

He warned:

"Inevitably and invariably, the totalitarian 'Liberals' find themselves whittling away the freedom of men. Their Utopia is a will-o'-the-wisp that leads implacably to the swamps of serfdom.

" . . . The Western Hemisphere is fast becoming the last hope of free men. We do not question the right of these other nations to decide for themselves. But we equally have a right to make our own decisions."

MR. HOOVER'S patriotic utterances recall the succinct phrases of George Washington, who, in his farewell address on Sept. 17, 1796, quizzically asked:

"Why quit our own to stand upon foreign ground? Why, by interweaving our destiny with that of any part of Europe, entangle our peace and prosperity in the toils of European ambition, rivalship, interest, humor or caprice?"

In the summer of 1945, as the Second World War fades into history, Mr. Hoover urges that Americanism not be vitiated by blending with it inharmonious European ideas of state domination of the individual citizen.

On the Side By E. V. Durling

ASIDES: New Yorker suggests somebody invent a fountain pen that writes with black ink at one end and red ink at the other . . . Heard a woman say when she was a girl the song "In the Shade of the Old Apple Tree" was popular. That song was popular about 40 years ago. Women not wishing to date themselves shouldn't remember out loud about the songs popular when they were girls . . . In Pasadena, Cal., there is a laundry which handles nothing but men's shirts. It is styled a "shirt laundry" and does a terrific business.

★ ★ ★

BRIEFLY: Note it stated roses are sold by stem length; the longer the stem the higher the price. Average length of a rose stem is around 14 inches. If you can produce a type of rose that has a 21-inch stem your fortune is made . . . Garfield's mother was the first mother to see her son inaugurated President of the United States. Now if you studied history as you should have and have a good memory for news, you should be able to state quickly how many Presidents since Garfield have been inaugurated during the lifetime of their mothers.

★ ★ ★

SOUTHPAWS: A Seattle reader says for 15 years he has been trying to find out why there are no left-handed shortstops. Claims he asked many professional ballplayers, none of whom could give a satisfactory answer. Believe it is because any speedy ball thrown by a left-hander has a curve on it. This makes it harder for a first baseman to catch. Therefore southpaws are rarely used as shortstops, second baseman or third baseman.

★ ★ ★

CELEBRITIES: Am asked what celebrity of yesteryear had the nickname "Old Hoss." There were two of them. "Old Hoss" Radbourne, major league player who pitched 72 games in one season for Providence and won 60 of them. And "Old Hoss" Hoey, the comedian who introduced the song "The Man Who Broke the Bank at Monte Carlo."

★ ★ ★

SAYS HE: *"In the past few years I have been in practically every city in the United States having a population of 100,000 or over,"* says an Army major, *"I am a bachelor. Glamor girls are plentiful everywhere. Due to the many artificial aids to beauty, most any woman can be good looking these days. But pretty, sincere, sympathetic, sensible girls with a sense of humor are still rare. Most of the glamor type women are pathetically dumb. All wrapped up in themselves, they are terrific bores. There is no man shortage for intelligent girls. I know hundreds of men who are anxious to meet clean-cut, sensible women of the type a man wants to marry. But these self-centered synthetic stupid beauties have no appeal to the regular fellows."*

PASSING BY: Marie Wilson, Hollywoodian. Still rated Hollywood pinup girl No. 1 by the more discerning experts . . . Nicholas Dandalos. Better known as Nick the Greek. He once won $1,500,000 in a series of dice games and carried this huge amount of cash from New York to California in a suitcase. As previously recorded in this department, Mr. Dandolas is fond of saying, *"I may gamble a little but I never drink, smoke or use profane language in the presence of ladies."*

Marie Wilson

Copyright, 1945, King Features Syndicate, Inc.

"No, Sir, he's no captured Jap—it's our precaution against his hay fever!"

FAIR ENOUGH

By WESTBROOK PEGLER

Copyright, 1945, King Features Syndicate, Inc.

NEW YORK, Aug. 17—Felix Frankfurter, in the famous Ablative case, wrote that it is pernicious over-simplification to hold that the meaning of a law is plain because its language is plain. To be sure, Old Weenie has never been successfully charged with using plain language and even in this dictum he balled up his wordage in the true manner of Earl Browder but, if you use a kind of mental Braille you fetch up at the idea that he wouldn't take any responsibility if he should sit down and write some dish a sheaf of mash notes and that if he should tell her, *"I am nuts about you,"* he could just as well mean, *"You make me sick,"* and probably would.

Westbrook Pegler

Well, me, I am otherwise, so when I say there is a leak in the Supreme Court of the United States I don't mean that there is no leak. I mean that there is and that this same leak if it isn't plugged might be used one of these days in some decision affecting the stock market to let some gang of racketeers, perhaps a bunch of Communists, pull off a killing on the strength of a tip from the inside. They might even engineer a panic.

This leak in the Supreme Court has been made evident on two occasions, the latest one being a flat, unqualified foretelling of a decision which went in favor of the Communist conspiracy against the United States Government, plus an accurate list of the justices who dissented, weeks in advance of the public announcement of the decision.

★ ★ ★

MY LANGUAGE is plain and means exactly what it says when I say I neither believe nor insinuate that Old Weenie has been the source of this leakage. However, I have reason to suspect from past performances that one of the brethren is responsible. Moreover, I can say that this has been called to the attention of Chief Justice Harlan F. Stone and of Representative Hatton Sumners, of Texas, the chairman of the Judiciary Committee of the House.

Not being privy to the affairs of the Supreme Court, nor wanting to be, I won't even speculate as to whether Mr. Stone has brought it up in meeting and raised hell about it in the privacy of the lodge. Our people don't try to break into the privacy of the court, or the Cabinet or the State Department, either, for that matter, and decent editors would refuse to jump the gun on court decisions even if they did have pipelines into the chambers.

★ ★ ★

WELL, so what can be done about it?

If this were any other government agency, even the State Department, where secrets of atomic power are stored, the FBI might be called on to plant agents as messengers, and so forth, and maybe tap the phones of some of the justices and plant listening devices in their chambers and their homes.

The FBI was called in, you remember, to find out who was leaking confidential diplomatic information at the State Department and came up with a bunch of arrests, recently followed by a set of indictments.

But it does seem unthinkable to do this to the Supreme Court because it occupies a position of the highest public trust and if you go to spying on these men, how can you feel confident that the spies won't take advantage of their information? And the court, itself, could hardly call on the FBI for this service because all the members would have to know about it and you can't catch a leak if you warn him that you are watching him. Moreover, it just wouldn't be nice.

★ ★ ★

I DON'T SEE just what the Judiciary Committee could do, either, and Mr. Sumners has no suggestions. You could call every one of the justices and every secretary and other employee of the court and the guilty one would be sure to say he never dunnit and there you would be, right where you began. And there is no profit in calling on anyone who deals in such information because you would only advertise him or her, and the traditional defense a person cannot be compelled to betray a confidence would be invoked even though the informant who gave the confidence broke confidence himself in doing so.

It might do some good to have a speech or two in the House and Senate about it and a public airing of a specific instance in which the mathematical probabilities against an accurate guess are so great as to discredit a guess as the explanation. Anyway such stuff is not presented as guess-work.

Well, anyway, my language is plain and my meaning just as plain, when I say that the United States Supreme Court has sprung a leak.

Hollywood Today

By Louella O. Parsons

Distributed by International News Service

HOLLYWOOD, Aug. 17—In Hollywood we are just getting back to normalcy after two days of talking, thinking and enjoying peace. Try to get anybody to talk motion pictures, or try to get anybody on a telephone!

Fortunately, I happened to meet Jack Warner. *"What's new?"* I asked him. Then he told me he had signed Joan Chandler when he was in New York. *"Oh,"* I said, *"you mean the girl who played in 'The Late George Apley?'"* *"That's it,"* he said. She's 22 and she was one of the sensations of Broadway this season.

Barbara Hale

Joan arrives immediately for her movie training, but as yet he has found no picture for her. She's had an amazing career. She went directly from one of the neighborhood theaters in New York to the very important "George Apley." She's a dancer and is described as very photogenic.

★ ★ ★

CALIFORNIA Assemblyman Albert Dekker is going to forget his politics long enough to play the lead in "Johnny Fletcher, Detective," for Walter Colmes, Republic director. I suspect that Dekker can't make enough money being in the Legislature to keep himself going, so he's relying on the good old movies. Mike Mazurki, who was so wonderful in "Murder, My Sweet," is the detective's strong-arm man. This "Johnny Fletcher" series, authored by Frank Gruber, has a ready-made audience of 10,000,000 readers. Eight books have already appeared in the series and Gruber, himself, is writing the screen play.

★ ★ ★

IT'S ALWAYS WISE, I find, to keep an eye on these youngsters. The newcomers of today are often the stars of tomorrow. Barbara Hale is one of these young, attractive girls, as Bill Wilhams will verify. She happens to be the gal he likes best, and I believe one of these days they will wed — that is, when Bill is legally free. Now about Barbara's career. She gets the femme lead as Robert Young's leading lady in "Lucky Luck," formerly dubbed "D-Day in Las Vegas."

★ ★ ★

SEEMS TO ME I printed in this very column that M-G-M wouldn't invest any large amount in buying Broadway plays. That may be true, but the company is not adverse to backing plays. I have just been told that it is M-G-M money in the Gilbert Miller show, "The Rich, Full Life" ($175,000 of it) in Vina Delmar's story about a mother and her young daughter. Moreover, I hear M-G-M has dibs on it and will give it to Elizabeth Taylor, their 13-year-old subdeb, when it is made into a movie.

★ ★ ★

LUNCHED with Frankie Sinatra and he tells me Danny Kaye is planning to do a short similar to "The House I Live In," the non-profit movie he made to help overcome religious intolerance among children and to help fight juvenile delinquency. Frankie is very sincere in his fight to help youngsters. Born a poor boy himself and remembering how the kids in his neighborhood yelled "dago" at him and his humiliation, he is determined that other boys won't have the same experience. He believes the children should be taught that all men are born equal and no one's religion, creed or race is ridiculed.

★ ★ ★

COL. JIMMY STEWART is home in Vinegar Hill, his parental house in Indiana, Pa. The townspeople have flocked to see our, and their, hero, and Jimmy's mom has cooked all the things he likes and tried to feed him up just as mothers all over the country are doing when their boys come home . . . We in Hollywood are proud of Jimmy. He was the first famous star to go into the Air Corps. He joined the Army as a private and has been promoted steplstep to a full colonel on him merit. He has a marvelousrol, having been in many hot missions over Germany.

★ ★ ★

SNAPSHOTS OF HOLLYWOOD COLLECTED AT RANDOM: There's talk thatShirley Temple, now that was over, will marry before theal of the year; Buff Cobb Bator turning the charm on Ellsthe at the Troc; Irene Ryand Harold Knox, entertainerall probably be the first Hollwood couple to spend their honeymoon in Europe. They are asked permission to go on USO tour right after their marriage in three weeks; nobody is e "Doll Face" set at 20th col figure out what the huge initials PRC meant on Perry Como's sweaters, when he workshe TFC. Carmen Miranda solvet he mystery—they are his initials, which stand for Perry Ronald Como; Carleton Alsop was at Kay Williams' house for dinner the other night. He told me that Martha Scott has gained eight pounds and that she starts rehearsals immediately for "Voice of the Turtle"; Dorothy Garland, Judy's sister, is having a big romance with Dr. Winklan Smithson; Fritz Lang has given up hismenacle for the duration of "Scarlet Street" and is wearing glasses because they are easier to manage; Jane Withers and Bob Oliver are becoming a very specialdiet. Bob Burns is writing his autobiography under the title of "Well I'll Tell You"; Betty Hutton cables: *"Having terrific experiences, played to 24000 men last week in Marseilles. Leave for Reims today. USO and special services wonderful to us"*; Ralph Staub is taking his camera to Mexico City to make the first "Screen Snapshots" down there. Jinx Falkenburg, who is very popular south of the border, goes along to do the commentary.

Broadway

By Dorothy Kilgallen

Copyright, 1945, King Features Synd., Inc.

NEW YORK, Aug. 17—Hi'ya, Stranger! So glad you wrote that you were coming to town in August—any month is full of activity in New York but August is a flirty time of the year, uncertain and vixenish and liable to any mood, so I'm sure you'll feel the excitement in the ozone of the town whether it's simmering under a hot haze or shipping in a gale past Autumnal shop windows. Come prepared for anything.

Dorothy Kilgallen

You can be grand if your wallet is in a nice rounded condition, and dine or lunch in the garden at the Marguery (try the hot canape, you'll be mad for it and I'm sure you've never had it at home), or by the little pond in the gardens of the Ritz-Carlton, or in the chic Chatham Walk.

If you're economizing, however, take a chance on almost any French or Italian restaurant on the side streets in the midtown sector. They're inexpensive, and if you tell the waiter that you've come all the way from Sioux Falls to enjoy a really authentic Italian (or French) dinner with wine trimmings, he'll be charmed to choose the dishes for you and ten to one they'll be fine.

Afterwards, for just a dime, you can take an hour-long cruise up Fifth ave. on the top of one of our open double-deck buses bound for the suburban reaches of Ft. Tryon Park. There's nothing new about a Fifth ave. bus ride—people have been doing it for years—but it's always an exciting experience if you keep your eyes open and your mood carefree. Don't miss it—do it by day or by evening.

Not outdoors—but with an under-the-moon feeling—is the luxurious lush Starlight Roof, heavenly high above our small island on an upper floor of the Waldorf-Astoria.

Try a before-dinner cocktail at the St. Moritz sidewalk cafe—the nearest thing we have to one of the big Parisian sidewalk cafes—where you can sit at a little round table behind a box hedge and watch the "characters" (only Gotham can produce so many types) stroll along Central Park South.

★ ★ ★

ON MONDAY nights along Riverside Drive you can watch or take part in a city-sponsored revival of the great American square dance. The modern jitterbugging is done on the mall in Central Park, where also is held the regular Goldman band concert, which has been going on, weather permitting, for over 20 years in this town.

★ ★ ★

CARNIVAL FUN? If you're going to do New York up brown, don't miss Coney Island. The subway takes you there for a nickel, and when you arrive you've got not only the fresh ocean breezes and the tang of salt water but the greatest honky tonk carnival in the world, complete with scenic railways, barkers, freaks, etc.

LET ME KNOW WHEN YOU'RE GOIN' TO START RASSLIN', SON---AN" IN TH' MEANTIME, I'LL LOOSEN UP MY MUSCLES!
HM--FER A GUY 109 YEARS OLD, 'HOMER, DA HOIMET,' IS PRETTY GOOD! --HE PULLS UNCLE BERT AROUND HIM AS EASY AS A TOIKISH TOWEL!
YOU'RE OUT OF YOUR CLASS, UNK
8-17

George Holland

Boston After Dark

THE MOOD OF THE TOWN since Surrender Day has been noteworthy . . . Almost everyone celebrated when the peace announcement came from the White House Tuesday night . . . But there was very little disorder . . . Wednesday, a holiday of a sort due to a garbled interpretation of a presidential communication, was "a hangover" day and night . . . Last night reminded an observer of a tune called "The Song Is Over—But the Melody Lingers On!" Again there were thousands in a festive mood, but not enough violence to make the night clerks of the police stations over-work their writing arms.

★ ★ ★

THE ENTERPRISING and handsome young man who sees his name occasionally in such parts of the public prints as this has won himself a huge and profitable enterprise—all by his itsy-bitsy lonesome . . . His rivals in the nightclub business will know him at once by the description "handsome" . . . But the public will recognize him by his name—Mickey (Michael) Redstone . . . Michael, or Mickey, is now the sole owner of the Latin Quarter . . . Louis Fox, one of the erstwhile partners, has been busy elsewhere . . . another quondam partner is about to devote himself to less conspicuous enterprises.

The Latin Quarter was purchased in 1941 for $175,000 plus an agreement to pay Louis Walters, its founder, the sum of $20,000 a year for "ground rental" . . . The new sole owner, Mr. Redstone, paid $175,000 for the place, buying out his partners, and such obligations as the original operating trinity assumed have been accepted by Michael as a basic part of the agreement.

★ ★ ★

OTHER NIGHTCLUB NEWS should include an item about the Murtagh Sisters, current at The Mayfair . . . The three girls are doing comedy and singing songs and selling out . . . Harry Richman has proved the most attractive act booked into Boston since Pearl Harbor . . . The Bradford Roof, Harry's podium, is packing them in . . . Peacetime improvements of the local after-dark scene include that of Eddie Davis in extending the main second-floor dining room of the Fox and Hounds Club so that it will nearly kiss the Charles river (at high tide and with a strong northwest wind) . . .

★ ★ ★

A BIT FURTHER west on Beacon st., Bernard Sheperd Snyder, operator-owner of the Hotel Fensgate, is studying plans which call for an expenditure of $250,000 and an extension of the Fensgate's Satire Gardens to a point as close to the aforesaid Charles river as the zoning laws will permit . . . A beautiful dining and supping room, with unshatterable glass composing a roof that can be rolled back in summertime, is shown in the plans . . . Work is scheduled to proceed when Uncle Sam gaves the word to lift priorities . . . Do not look for meat in abundance until Thanksgiving Day or thereabouts . . . The black market clutches our area too tightly, temporally, to permit a normal flow of beef or pork . . . The same black market is so firmly entrenched that we shall be correct in anticipating a shortage of many commodities for the while . . . But when the crackdown comes—as it will—Federal agents predict that there will be more convictions than average . . . Housewives and their patient spouses, the agents predict, will take out their pent-up wrath on the characters who have been profiting at their expense for many, many months . . . In fact, the community at large will be one gargantuan informer, the agents believe . . . Righteously, the agents think.

Bridal Plans Go Smash

DEAR MISS FAIRFAX: I'm a girl of 21, deeply in love with a young man of 25, who says he's in love with me too. We had even started to plan for the future, when all of a sudden he decided he couldn't do the things for me he'd like to, and suggested we stay away from each other for a few weeks. He also told me to accept invitations from other boys, but I don't care to do that. No other man can take his place.

He lives a few houses away from me, and I'm apt to see him several times a day. How shall I act when I see him? Do you think there's a chance of his ever coming back to me? I read your column every day, and hope you can give me some advice. —K. D. B.

When a man treats a girl as you describe, the only thing she can do is fall back on her pride, hold her head high and convince the neighbors the broken engagement has not hurt her. Judging from many letters received, reporting similar behavior on the part of men, it means usually they've got interested in someone else or have gotten into some kind of a scrape. When you meet him, speak pleasantly.

Force yourself to become interested in some one or some thing in the way of a hobby. Don't let this get you down, at the heavenly age of 21. The young man just isn't worth it.

WASHINGTON, Aug. 17—Nothing having happened in Washington all week, except something about a Japanese surrender, this is indubitably the time to tell you about a ferocious fight that is going on between the Foreign Economic Administration and the Department of Agriculture, headed by Clinton P. Anderson.

Clinton P. Anderson

To date no blood has been shed although they tell me those economic furriners are very quick to pull a knife. However, we are watching the situation closely and the minute gore is splattered we will send a flash and then kill it two minutes later with the explanation that somebody has been monkeying with our wires.

The cause of the dispute goes down to the very roots of things. It is whether we should give away our Kentucky blue grass seed.

★ ★ ★

AS YOU MAY HAVE HEARD rumored, there are countries in various parts of the world who wish us to give them things. They wish us to give these things on the cuff, meaning they have no burning desire to pay for them, either in cash or in kind.

They are not bothered with that silly false pride which makes the receipt of charity distasteful.

Furthermore, they are not backward about making their wants known. In fact, many of these countries have been on our pogey, or dole, list so long they think we owe them a living. They no longer beg for things. They demand them.

And they demand the best. Their motto, which should properly be inscribed on a heraldic device showing a tin cup on a cross of pencils rampant, is:

"Accept no substitutes."

Well, it seems that certain of these countries, which I shall not identify because why should I go around mentioning Russia, France, Britain and Italy, have heard that our Kentucky blue grass is very high class grass and well thought of by epicurean cows, horses and other livestock. I have no idea where they heard this, although there is a suspicion that it may have emanated from Kentucky itself.

Anyway, these countries notified our Foreign Economic Administration they wanted grass seed. And they specified Kentucky blue grass seed. Naturally the FEA approved their requests because it would never think of questioning the demands of a foreign country. That is where it gets the name "economic." We'd be so much more economic without.

★ ★ ★

BUT IN MATTERS like the giving away of grass seed, the FEA does not have full say. It must also get the O. K. of the Department of Agriculture. Having been created under the New Deal, FEA naturally felt this would be a cinch.

But for some reason which cannot be explained, except that it may be thinking of rejoining the United States, the Department of Agriculture demurred. It said it did not think we had any Kentucky blue grass seed to give away; that we needed every blade of grass we could raise in this country.

It shocked FEA with the heretical observation that it thought those foreign countries might struggle along with ordinary grass seed for a while. It said it would try to dig up some grass seed and ship it overseas but that it wouldn't be Kentucky blue grass.

The battle still rages, with FEA demanding blue grass. As Gertrude Stein would say:

"That's the story of the grass, alas!"

★ ★ ★

MR. MARSHALL DIGGS, prominent Washington attorney, has just received this pungent letter from a young soldier overseas:

"When I was a kid in school I used to love geography, but now I'm seeing it I don't think so much of it."

★ ★ ★

SIGN OF THE TIMES: A lady in Port Washington, L. I., was expecting guests and went to her regular butcher to beg meat. The butcher was closed so she went to his home.

He told her he had no meat; then he said:

"Listen, I know a way to help you out, I'll give you a hatful of red points and you take them to another butcher."

★ ★ ★

HOW TO PUN PEOPLE so everyone will avoid you on sight: *"Hirohito used to be absolute. Now he's obsolete."*

★ ★ ★

THE NAVY'S new carrier Midway is so huge the flight deck could contain a nine-hole golf course. Of course, a player would be in the rough most of the time because the deck is not exactly bare.

The immensity of the craft completely overwhelmed a young pilot coming in to land on it for the first time. He circled a couple of times, then radioed the ship:

"Which runway shall I take?"

"I did say 'uncle'. She wants me to say 'sweetheart'!"

California War Workers Trekking Back East, South

LOS ANGELES, Aug. 17 (AP) —America, here they come!

The hordes of migratory workers who answered the call of California's high-pay war plants today are en route home. But this time, they're traveling in style.

Hundreds of cars and trucks, loaded with "terminated" war workers, children, animals and household goods, are leaving California daily, California-Arizona border inspection stations report.

"And they seem to be plentifully supplied with funds," Ernest Hall, inspector in charge of one border inspection station, reports.

Released from their war jobs in layoffs prior to or concurrent with Japan's surrender, these folk are loading up on soap, reportedly a scarce commodity in other sections of the country, and heading out for the Middle-West, the South and the East, Hall said.

Yesterday 417 vehicles passed through Hall's station, near Ehrenberg, Ariz., the greatest number in a single day.

"Most of them," he said, "were bound for Texas and Oklahoma." A year ago the daily average was 250 cars.

Now that gasoline rationing has ended, "we are making preparations for a big increase," Hall reported. "I don't know how we are going to handle them."

J. G. Fitzgerald, inspector in charge of another station, cited a 30 per cent increase during the past four days.

"Our figures also show, he said, "a total of 8900 more cars in July this year than in the same month a year ago."

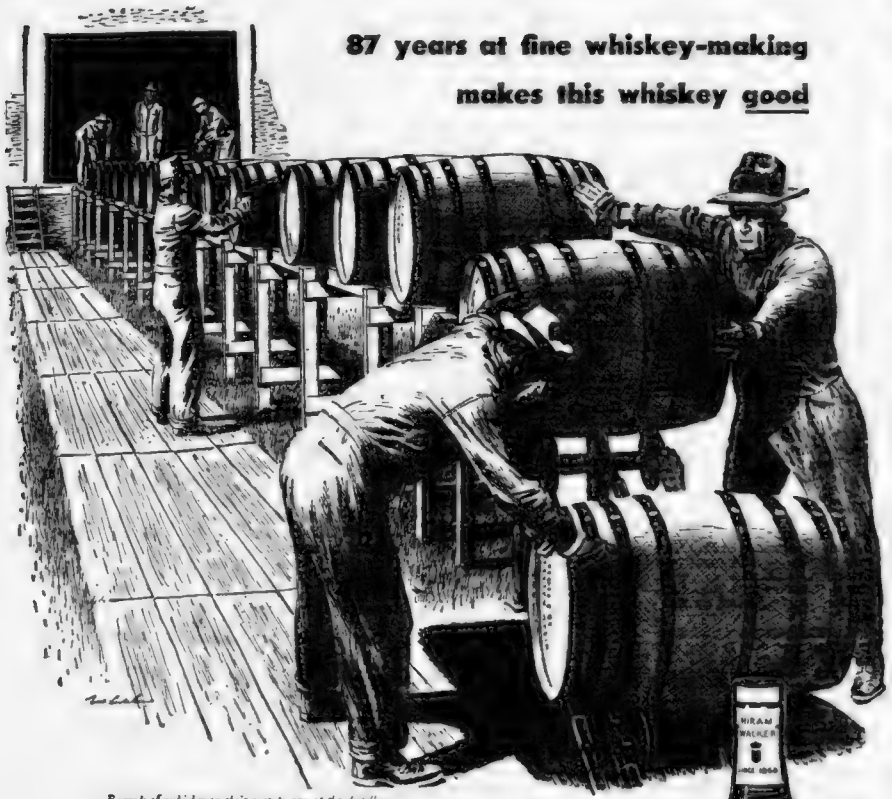
87 years at fine whiskey-making makes this whiskey good



Barrels of whiskey on their way to age at the distillery.

There's a difference even between fine whiskies—and the difference that you'll always find in Imperial is the whiskey-wisdom Hiram Walker has gained through all the years since 1858. You can taste it—and it tastes good.

IMPERIAL

Hiram Walker's Blended Whiskey

It takes barrels of money to win a war. It takes all the money you can put into war bonds. Buy more . . . hold them!

86 Proof. The straight whiskies in this product are 4 years or more old. 30% straight whiskey. 70% neutral spirits distilled from grain. Hiram Walker & Sons Inc., Peoria, Illinois.

Fashion

HERE'S a background dress for autumn . . . with a trio of self-fabric ruffles . . . introducing a smart Spanish suggestion . . . even to the topper. Ideal for town wear all season long . . . this dull, grainy Eastman acetate rayon frock is slimming and subtle . . . even to the deep inverted tucks which give a glove-smooth fit to the hipline. —R. M.

Ration Dates

MEATS, FATS, ETC.

Blonde Hair Glorifier Does Wonders

Beauty

By RUTH MUGGLEBEE, Beauty and Fashion Editor

THERE MUST BE something pretty special-looking about golden-sunset blondes . . . for why do gentlemen prefer them? We wish some gentleman would step up and tell us why . . . since we're a sultry brunette.

We've come to the conclusion that . . . after all . . . there must be something to this beauty business of being a blonde . . . for why would Walter Florell . . . one of the nation's top-flight designers . . . go to the trouble of changing a star's hair color from brownette to tangerine red . . . or almost golden sunset? Maybe it's because heroines are supposed to look clinging-vine and delicate . . . and only a blonde has that Dresden-like quality of feminine fragility.

But we hasten to add there's nothing very special looking about a so-called "dirty" blonde . . . the nondescript straw colored kind that is betwixt and between the sunkissed and the spun shade. If blondes must be extra careful about the color of their locks . . . maybe that's nature's way of making them pay dividends for the extra-special endowment given them.

Many blondes have been afraid to use anything on their hair because of the possible ill effects of the para-phonylene-diamine dyes . . . and we don't blame them. But here's a vegetable base of camomile extract that is not a dye . . . nor a harsh bleach . . . and can be used with complete safety and satisfaction by blondes, redheads and light-brownettes, too . . . if instructions are followed.

This product . . . made-to-order for blondes . . . is especially designed to enliven and lighten and highlight the charm of blonde hair. It has none of the coarsening effects of harsh bleaches. If you are a rusty redhead and would like to impart a coppery sheen to those could-be-beautiful tresses . . . this product if used in accordance with the directions on the package . . . will make a reality of that wish.

If you are a "dirty" blonde . . . inject some golden highlights that will bring your head into the glamor class. But don't let time take its course . . . and dim the loveliness of your precious asset.

For the name of this blonde hair glorifier, phone the Beauty Dept., LIBerty 4000, or write me, care of the Boston Evening American, inclosing a stamped, self-addressed envelope.

IT TAKES no great stretch of the imagination to understand why Virginia MacWatters, lyrical soprano star of "Mr. Strauss Goes to Boston," now at the Shubert, permitted Designer Walter Florell to change her hair color from brownette to golden sunset . . . now that you can look at her loveliness and say "ah." Blondes do command a second look . . . and we, as a brunette, bow in recognition of their feminine fragility.

Easy-to-Prepare Dinner

By MARTHA LEE

HAVE YOU BEEN SERVING cooler dinners on Sunday this summer? And, if you're a homemaker, haven't you found that it gives you more time to yourself, and leaves you in a more composed state at the end of the day? Meals that can be partially prepared the day before are wonderful relief for meal planners.

How about making dinner this coming Sunday a special occasion—with a minimum of work? The menu below is quickly prepared:

MENU

Curried Mushroom Soup
Lobster Salad in Avocado Cases
French Garlic Bread
Fresh Fruit
Coffee

The lobster may be cooked and opened on Saturday, and the salad ingredients all readied with the lobster on Sunday. The soup might also be cooked on Saturday, allowed to cool, stored, covered, in the refrigerator, and reheated on Sunday.

We think this is a good time to remind you how to open your cooked lobster. To get the meat out of it, split the lobster open by placing it, feelers down, on a board and then, with a sturdy knife, cut through top and bottom shell, separating the lobster into halves. Then, with a small paring knife, remove the long dark line which can be seen running down through the white meat from head to tail, and in addition, lift out the filling in the head. All that remains is edible.

CURRIED MUSHROOM SOUP

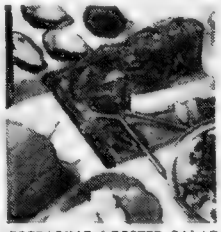
½ tbsp. butter or margarine
½ oz. can mushrooms (stems and pieces)
½ tbsp. flour
1 tsp. curry powder
½ cups milk
3 chicken bouillon cubes
Nutmeg

Melt butter in heavy saucepan. Drain mushrooms from liquid, saving liquid. Chop mushrooms fine; brown lightly in the margarine. Mix flour and curry powder; add to mushrooms and stir to smoothness. add mushroom liquid; stir until creamy. Add milk and bouillion cubes. Cook over low heat until rich and slightly creamy. Serve with sprinkling of nutmeg over top. Makes 4 servings.

LOBSTER SALAD IN AVOCADO CASES

1 cooked lobster
1 small cucumber, thinly sliced or cut into matchlike pieces
⅓ cup stuffed olives, sliced
¼ cup thin slices celery
¼ cup shredded celery leaves
¼ cup shredded water cress leaves; juice of 1 lemon
Dash of garlic salt
Salt and pepper to taste
½ cup mayonnaise or salad dressing
Dash of powdered nutmeg
3 avocado pears

Remove lobster meat from shell, breaking into neat pieces. Add cucumber, olives, celery, celery leaves, watercress. Add dash of garlic salt, plain salt and pepper. Add lemon juice and toss lightly with fork to mix. Add mayonnaise and again



PREPARING LOBSTER SALAD

toss lightly with fork to mix. Cut avocados in halves; remove seeds. Scoop "meat" from center carefully with a tablespoon, mashing as little as possible. Slice this avocado meat and add to salad mixture; pile lightly into avocado shells. Serve in bed of watercress with extra mayonnaise, if desired. Makes 6 servings.

FRENCH GARLIC BREAD

Version 1: Cut loaf of French bread (round or long loaf) into diagonal slices about 1 inch thick, but do not cut loaf all the way through. Melt 1-3 cup butter or margarine and to this add small clove garlic, cut in half. Remove garlic from butter after stirring 2 or 3 turns. Brush sides of slices with pastry brush or make a "brush" with a bit of waxed paper or clean paper napkin. Toast in very hot oven (450 deg. F.) until loaf is heated through and begins to brown over top.

Version 2: Spread both sides of bread slices with butter or margarine. Sprinkle garlic salt over cut sides and over top. Sprinkle also with paprika. Toast in hot oven the same as above.

Invitation Problem

DEAR MRS. BEECKMAN, Will you please tell me how to write the invitations to an engagement party? The point is that I would like to have as many as possible of the guests dress formally, but also telling them that if this isn't convenient, they are to wear street-length dresses. C. N.

This form may be a solution for this dress-problem:

Dear Mary:

In honor of Doris Fleming and Philip Brown and their engagement, I am giving a party here on Friday, August 31st, at eight o'clock in the evening, and please tell me that you and Bob will come. If convenient, a long dress for you and "black tie" for Bob . . . if not, short dress and business suit. Anyway I hope we'll have fun and it will make us all so happy to welcome you two dear friends on the thirty-first!

Affectionately,
Clarita

2 Billion Yearly U.S. Work Urged

By WILLIAM S. NEAL

WASHINGTON, Aug. 17 (INS)—Sen. Elmer Thomas (D.) of Oklahoma, proposed today that Congress appropriate funds for a three-year public works program costing more than two billions annually.

Thomas pointed out Congress already has authorized legislation for much of the program, including flood control, rivers and harbors, highway, rural electrification and reclamation works.

"We could easily put two billions a year for three years into things that are going to be built anyway, and it would provide many jobs."

Thomas declared he would oppose creation of a new WPA to handle the jobless. He asserted that is is far better to supplement private industry with public works.

Best Designers Creating Fur Coats

By BETTINA BEDWELL

THE best news about fur coat fashions this fall is the fact that real designers are now designing them in a big way. This means that you should get better fur coats than ever before.

Some of the famous names that are signed to fur coat models this season are Adrian, Valentina, Schiaparelli, Omar Kiam, Sophie and Travis Banton. These people have ideas and are going to study this problem and lick it, I hope.

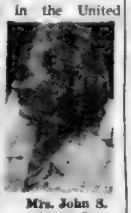
Miss Dulin has sketched a designer fur coat model for you. This one comes from Travis Banton and is made of Hollander Hudson seal. It is a tunic type of coat with push-up balloon sleeves and a trim, collarless neckline. A belt of suede is used around the waistline. It ties at the front on thongs of the suede and is studded around the borders with gold nailheads.

Smart Set

By BETTY ALDEN

Wed in Cambridge

A WEDDING of international interest will take place tomorrow in historic little Christ Church, Cambridge, when Miss Sha-Nah Chien of Chungking, China, becomes the bride of Shao-Ti Hsu, graduate student at M. I. T. Miss Chien arrived in the United States on Aug. 2, direct from Bombay, on the S. S. Gripsholm. She has been en route from Chungking since April 1. A reception will follow the wedding at the Cambridge Boat Club.



Mrs. John S. Ames, Jr.

Miss Chien is making her home with Mr. and Mrs. Murray F. Horwood, of Cambridge. She was born in Hunan, China. Before the war she lived with her parents, Mr. and Mrs. Moo-Ling Chien in Hankow.

When war broke out the family moved to Chungking. Mr. Moo-Ling is a graduate in mining and metallurgy from the University of California with the class of 1916.

Miss Chien studied voice and piano at the National College of Music in Chungking. She has given recitals in the Chinese capital, and expects to continue her studies in music while she is a resident of Cambridge.

Mr. Shao-Ti Hsu was born in Ning-Po. Before the war his family lived in the International Settlement in Shanghai. He is a son of Mr. and Mrs. Shan-Ching Hsu, and graduated with high honors from Chiao Tung University in 1937, receiving the bachelor of science degree. He holds the rank of captain in the Chinese army.

* * *

AMONG THOSE who have reserved tickets for the tennis tournament to be held at the Essex County Club in Manchester, tomorrow and Sunday are Mrs. John S. Ames, Jr., Mrs. Standish Backus, Mrs. Standish Bradford and Mr. and Mrs. Frederick Bundy.

* * *

MR. AND MRS. HAROLD T. HOUSTON of Andover have announced the engagement of their daughter, Alva Elizabeth, to Lt. Richard Keith Davis, USNR, son of Mrs. Paul H. Vincent of Erie, Pa. Miss Houston was graduated from Abbot Academy and for the past year has studied voice in New York city. Lt. Davis received his B. S. degree at Sheffield Scientific School, Yale University.

* * *

MR. AND MRS. BOYD OZMENT of Decatur, Ga., announce the engagement of their daughter, Mary Neil to Lt. Edwin Jason Pingree, USNR, son of Mr. and Mrs. B. Harrison Pingree of Melrose.

Miss Ozment attended Agnes Scott College in Decatur. Lt. Pingree prepared at Tabor Academy, attended Dartmouth College and was graduated from Babson Institute. A pilot in the Naval Reserve, he has taken part in the invasions of the Solomons and Philippines and the Battle of Bismarck Sea.

An early fall wedding is planned.

Gardeners Must Prepare For Seasonable Drouth

By FOSTER H. WEISS

Head of the Vegetable Gardening Dept., Norfolk County Agricultural School, and Director of the Boston Record American-Advertiser Gardens on the Common.

The adequate supply of moisture provided by well-spread showers during the first half of August have had a beneficial effect on crop growth and produced some excellent quality vegetables. Gardeners must now be on guard against a dry spell that may cause crops to dry out.

Gardeners who have late potatoes must still give them some attention. Many patches are still showing bad infestations of aphids and leaf hoppers. The attacks of these insects will weaken the plant and allow late blight to become established. Another effect of aphids is that they help to spread welt and mosaic, two diseases that reduce yields. Late blight is now due.

This disease can be recognized by a mouldlike gray fuzz on the underneath side of the leaf. Do not wait for blight to become established. Spray or dust with copper compounds such as bordeaux mixture or copper lime dust. These sprays and dust must be put on so that the plant is completely covered.

Many gardeners have asked what the white eggs are that are found on the green tomato worm. These are the eggs of a small fly, which is nature's way of controlling this insect. As soon as the eggs hatch the tomato worm will be destroyed. When conditions are favorable for the parasite, tomato worms are not serious.

Many gardeners now have more cucumbers than they can use and it is a good time to make pickles. Do not allow them to get oversize before preserving. The following recipe will give good results and is known as the quick brine method.

1—Select even, small sized cucumbers, two to three inches long.

2—Wash and rinse about four quarts of cucumbers.

3—Make pickle solution of the following parts by measure—one pint of water, two pints of vinegar, three cups of sugar.

4—Put four tablespoons of whole mixed spice in a cheese cloth bag.

5—Place cucumbers and spice into the solution and cook at a slow boil for 10 minutes.

6—Remove spice bag and pack pickles into clean jars and cover with solution. Seal at once and store in a cool place.

News about sugar

Just two years ago these fine sugars . . . tablets, cubes, lumps . . . went to war to serve the needs of fighting men and help make victory in Europe sure.

Now V-E Day has been achieved. But V-J Day is still ahead. Until then, at least part of our production of these sugars in wrapped form will continue to be packed in ration kits for our combat forces.

Before long, however, the balance of our production of these favorite table sugars, even though in limited supply, will again be on grocers' shelves.

Use your sugar stamps, but use them wisely. Make a little do a lot.

3 Vital Tasks Confront U. S.

By KENT HUNTER
Boston American Washington Bureau

WASHINGTON, Aug 17 — America, to remain America, must do three things, Gov. Edward Martin of Pennsylvania, chairman of the executive committee of the Conference of Governors, fresh from a conference with President Truman, declared:

1st: Re-establish the American home.

2nd: Strengthen the church in American life.

3rd: Examine legislation and all forms of control by the yardstick: Is it American, is it constitutional?

Ex-Hub Woman Held for Treason

VIENNA, Aug. 17 (AP)—Miss Constance Drexel, indicted in the United States in 1943 on a charge of treason in connection with Axis propaganda activities, was arrested by U. S. troops yesterday.

She did newspaper work in Boston and went abroad as a correspondent in 1915. She said she served in the American Red Cross in World War I.

BOSTON, MASSACHUSETTS — On Friday, August 24, 1945, about 9:30 A. M. a public hearing will be held in the office of the Board of Appeal, Room 907, City Hall Annex, in reference to the Appeal of Florence Cottman League of Compassion asking to vary the application of the Zoning Law, Chapter 488, Acts of 1924, as amended, at premises 327 Greenwich Ave., Ward 12, in the following respect: (Sections 11 and 16), Permit garage in side yard and thus reduce same to less than eight feet

BOSTON, MASSACHUSETTS — On Friday, August 24, 1945, about 9:15 A. M. a public hearing will be held in the office of the Board of Appeal, Room 907, City Hall Annex, in reference to the Appeal of Fred Tobia, asking to vary the application of the Zoning Law, Chapter 488, Acts of 1924, as amended, at premises, 1220 Bennington St., Ward 1, in the following respect: (Sections 5 and 19) Permit storage of caskets in a local business (10 ft.) use, which is at variance with former decision of the Board of Appeal

Barbara Stanwyck Wins New Laurels in Met Farce

By MARY X. SULLIVAN

As if it were planned that way, both new movies in town are suited to the holiday-hangover mood of the public. Frivolity is in the air and also on the screen at the Metropolitan, where "Christmas in Connecticut" opened yesterday.

'Guest Wife' Gay Film

The best that can be said for "Guest Wife", currently on Loew's State and Orpheum screens, is that it is strictly escapist entertainment; the worst that can be said is that it is a waste of good acting and direction on a script that labors tediously to be funny.

Claudette Colbert again proves her ability as an actress, but we knew about it anyhow.

We are asked to believe that in order to save a dashing newspaperman's job, his best pal lends him his wife to save the journalist's job.

All of this fol-de-rol is for the purpose of deceiving the publisher who has taken the supposed honeymooners under his personal wing. Charles Dingle does a splendid job as the publisher, and Grant Mitchell is swell as the house detective . . . Miss Colbert gets a chance to run the gamut of emotions, and the two "husbands," Dick Foran (real) and Don Ameche (the pretender) both seem embarassed by the whole thing, as well they might.

Some day movie producers are going to learn the difference between high comedy and farce. —M. X. S.

The film hasn't the slightest social significance, but it does have Barbara Stanwyck, which is all to the good.

Miss Stanwyck portrays a lady who writes homey articles about cooking and life on her Connecticut farm for a national magazine which caters to women. What her public doesn't know is that mixing a cocktail is the limit of her cooking ability, and that she gets her farm material through having a beau who is a gentleman farmer. So, of course, a reader writes toh er publisher with the idea that "Mrs. Lane" invite a war hero to spend a week-end at her farm.

This puts the lady in the position of either admitting she is a fake, or else having to get a husband and a farm very quickly. She decides to marry her eager swain, but before they have time to get wed their guests arrive, and with them the usual complications.

Although the supposed-to-be-married situation has been much overworked, the picture gets away with it because of deft handling and a smart script. Dennis Morgan as the sailor-guest, Sydney Greenstreet as the publisher and Reginald Gardiner as the near-bridgroom all contribute to the fun.

GALA BURLESQUE AT CASINO

For the first time since its opening the management of the Casino burlesque theater announces that it will present eight burlesque features, who will be headed by the "queen of shake," Peaches.

LIONEL HAMPTON

Lionel Hampton Rhythm Delights K-Boston Fans

By MARION GLENDENNING

It's "sepia superb" with Lionel Hampton's orchestra and revue at RGO-Boston this week.

The opening number named, appropriately enough, "The 'A' Bomb" has trick lighting effects and jive enough to make the atomic bomb chaos in Japan seem like child's play.

Peace comes again in the second number when Herbie Fields, featured sax and clarinet player, gives a beautiful orchestration—in fact one of the best yet—of the ever-popular "Star Dust." Then Billy Nightingale, the long-legged dancer, starts their feet beating again.

"Hampton's Boogie Woogie" and the band finale "Flying Home," which finds Lionel himself and part of his troupe dancing in the aisles, beating trick rhythm out of any piece of furniture or floor that seems handy, gives the audience the fun they really came to see.

Tall and willowy Madeline Green gets rounds of applause for her singing "Is That Right Baby" and "I Should Care," as does Dinah Washington, the featured singer, with "Embraceable You" and "I Wish You Were Waiting for Me."

The Two Zephyrs, a dance duo, in a "Dice Game" number, part lit in slow motion, that is one of the highlights of the show.

The screen feature is "The Brighton Strangler" starring John Loder and June Duprez.

Lucky Star

Copyright, 1945, Gloria Hower

Take the last number of the year of your birth. If it is 0, add 2. If 9, subtract 3. If 8, subtract 1. If 1, add 4. In all other instances use your own numbers. Start at the top left and read your key numbers from left to right. The letters under your key numbers are your message for today.

Japan Wants Respite To Map Another War

By AUSTEN LAKE

SO PEACE COMES TO THE WORLD! The last big gun is stilled. The final ripple of rifle fire dies! Men crawl from their rabbit warrens and caves and gaze at their handiwork of ruin. Japan surrenders and all the civilized world rejoices.

Austen Lake

So now the soldier's work is done and political phrase makers and professional humanitarians take over the task of "restoring Japan to her place in the family of nations." To these I warn, "Japan's militarism NEVER surrenders." To her this is merely a peace of convenience. She bows to "material and scientific" superiority but concedes no mastery elsewhere. Already before the document of surrender is signed her martial masters are inciting the Jap people to study their failures as a guide to the future.

The warning is plain! Within a few years Jap underground science will discover the secret of the atomic bomb. What has been done once can be done again by others—if we permit it! For no American can be credulous enough to imagine that atomic force can be bottled up like an evil Genii and guarded as a personal mystery of one nation.

Radar is an example of such a secret. German electronic engineers perfected Radar, by another name, as quickly as the British and Americans. The principles of ultra high frequency and electronic echoes were shared mutually by international science—just as the principle of smashing atoms is known today.

They Only Regret Failure

THE JAPS, LIKE THE GERMANS, are unrepentant and without any sense of war guilt. The regrets of both nations center only on their failures. In this misshapen mentality of both peoples, they blame every agency but themselves. I remember the remark of a gentle-faced little hausfrau not so long ago near Chemnitz. "God is not good," she told me bitterly. "God is American and French and British. But God is not German." In her twisted mind a beneficent Deity would not have permitted German defeat. Therefore, the blame was God's, not Germany's.

So here we are, more than three months after German collapse, and still without a sound, vigorous plan to convict German war criminals. All we've had from ex-Atty. Gen. Jackson, head of our War Crimes Commission, is such bagpipe music as, "We are determined that none who participated in these acts of savagery shall go unpunished." But to date we've punished only a small handful of minor fry. At our rate of procedure the trial of war criminals will drag on for a century, or until they die of old age. It's not reassuring!

My advocacy of severe, realistic and even harsh disciplinary treatment of Germany and Japan is not prompted by revenge. It is based on pure international economics. I would engrave indelibly on their minds the hard, costly realities of making war. We want the price of this world horror so memorably tattooed on Germany's and Japan's national souls (sic) that future wars will loom, not as a glorified gentleman's game, but as an uneconomic bankruptcy. We want this bitter impregnation to last through the ages.

We want the two warrior nations to be their own victims of "total peace" as emphatically as we other nations were their victims of "total war"—a peace as pitiless as their war was merciless. We want to disabuse their mass minds of the martial philosophies that war is a recurrent avocation of a superior race, that the destiny of strong nations is to feed on defenseless neighbors, that war is a therapeutic spiritual purge which purifies supermen of their peacetime fatty degenerations.

Let us convince habitual aggressor nations like Germany and Japan that they may not follow the periodic whimsies of their latest leaders, whether the names be Bismarck, Wilhelm Hohenzollern or Adolf Hitler or Johann Schmidt or Tojo, and then go scot free to rest and recuperate and prepare new scientific gadgets for another attempt.

Japan Is Vulnerable

THIS LESSON MUST BE MADE unforgettable lest unborn American sons and grandsons be forced to pay for the weaknesses of our social theory some 30 years hence. We followed social theory after the previous world war and it spawned a frightful catastrophe. Let's follow social realism now and administer preventive medicine, however harsh to the taste.

Japan hasn't suffered the ruination that we showered down on Germany. Its industries and manpower remain comparatively intact. Japan has merely lost the decision and shows by word and deed that she asks only a respite, an interval to recover and, when ready, to resume again. Her fanatical murder societies like the Black Dragon cabals of young officers who played such a large part in dominating Jap government still exist. She has a potential army of 12,000,000 trained soldiers. Treachery is her religious creed.

One thing American occupation must do promptly—dismantle Jap industry and remove the forges which fashion her war tools, and then keep careful, eternal eyes on her imports and limit her shipping to the bare necessities of existence. For Japan is vulnerable! She depends on the outside world for nearly all materials. She has no iron, no nitrates, no oils, no coal—except what she barters from other nations. Let us never forget that we furnished nearly all the war materials which she used against us. If we had regulated Jap supplies 10 years ago there wouldn't have been a Pearl Harbor and there wouldn't have been many square miles of wooden crosses under which America's youth sleep eternally on foreign soil.

So let Americans also study their past mistakes and resolve this time that their gallant dead shall not have died in vain. If we miss the chance this time, we don't deserve another!

Sports Travel Ban Ends

WASHINGTON, Aug. 17 (AP)—The Office of Defense Transportation today formally lifted all restrictions on sports travel. In a statement, Col. J. Monroe Johnson, ODT director, announced "discontinuance of the voluntary travel restrictions on major professional sports, intercollegiate and high school athletics, and bowling."

He added this precaution: "Temperance in the use of sports transportation is wise to avoid any resumption of restrictions."

Johnson pointed out that "this is not an invitation to go hog wild in travel" because, he said, the rail transportation will continue to be extremely difficult.

Johnson said that sports were entitled to early consideration in the easing of restrictions "because of their voluntary agreement" and "certainly the civilian morale and recreational angles are to be considered."

Johnson's action clears the road for the World Series, 13 nonchampionship games of the National Football League, horse racing, postseason college football games and bowling meets.

All of these events and activities were either on the doubtful list or had been seriously curtailed by travel restrictions.

The ban on auto racing was withdrawn yesterday.

West Point athletic officials said the Army-Navy football classic probably would return to Philadelphia's municipal stadium. It is scheduled for Dec. 1.

The lifting of restrictions also is expected to go a long way toward settling the various turf championships with the possibility that Louis M. Mayer's Busher or W. L. Brann's Gallorette, most consistent of the three-year olds, will meet before the season ends. Busher has been running on the Chicago tracks following a successful campaign on the West Coast while Gallorette's racing has been confined to the New York area.

The Grand Circuit will be able to carry out its season with the top trotters and pacers at all tracks. During the ban on the shipment of horses by common carrier, such Grand Circuit meetings as Old Orchard Beach, Me., were confined to horses in the immediate vicinity.

Today's action removed restrictions on the shipment of racing and show animals by railroad or other common carrier.

Baseball Commissioner Happy Chandler said ODT's action was "fine, swell," and that "sports can now proceed unhampered and unfettered."

George Marshall, owner of the Redskins of the National Pro-Football League, said: "This relaxation comes at an opportune time for our league, and it certainly is in line with President Truman's policy of giving the country back to the people."

In New York, Ford Frick, National League president, commented: "It looks like this action gives the way for the World Series; it looks like we will go with for training next spring; it looks like we're back to pre-war days. From now on to the end of the season we're not going to run wild, of course. I think we will travel about as we have."

Rick Sees Jet-Turbine Race Cars

NEW YORK, Aug. 17 (AP)—Capt. Eddie Rickenbacker, president of the Indianapolis Speedway, said today that the 500-mile Memorial Day automobile race that was held in 1941, will be resumed May 30, 1946.

"It probably will be the fastest event of its kind," Rickenbacker said, "due to new developments such as jet propulsion and the gas turbine."

REDSKINS GET TOM MILLER

PHILADELPHIA, Aug. 17 (AP)—The Redskins, the Eagles of the pro football league announced today that Tom Miller has been traded to the Redskins.

Win No. 20 Stymies Ferriss

By HUCK FINNEGAN

CHICAGO, Ill., Aug. 17—The nearer the 20-game mark the harder to win one. Or so it would seem with Dave Ferriss. The Sox freshman tried three times before bagging his 18th victory, twice for his 19th and now twice at least for his 20th. He lost out in his first chance to register win No. 20 against the White Sox. But he better win Sunday when he tries to make the Browns victim No. 20. Why?

"The folks down yonder (Shaw, Miss.) have chartered a special bus and they're coming up to see me in St. Louis," he said today. "I better win or they'll disown me."

Ferriss was at a loss to explain his rout by the White Sox. They combed him for six runs and 12 hits in four innings. It was the second time he had failed to finish a game.

"I never had better stuff warming up," he said. "And I had good stuff during the game. They just beat me to a pulp, that's all. Schalk hit a perfect pitch, a curve ball low on the outside corner, for a double. And everything they hit found the hole. I couldn't get anybody out, could I?"

Not like you were getting them out in May or June, Dave. But then you did have a few bad breaks. In the first inning Ferrell's pop didn't reach the grass behind shortstop, yet it went for a hit and scored Moses.

In the second inning Ferrell's ground ball caromed off Lake's eye for a double to score Moses. That would have been the third out. In the third inning, La Forest skidded on the damp infield when he was about to grab Tresh's bounder.

As Dykes told you, Dave, when you were going through the White Sox dugout: "You'll have those nights occasionally, kid. Just forget it."

When you hit that line drive at Michaels in the fifth, you must have known luck wasn't running your way. Drives like that usually go for hits. Just keep your chin up and grab No. 20, Sunday.

'After all, Hal Newhouser is the only pitcher in either league who has won as many as you. And Hal was the league's Most Valuable Player in '44. You're still in pretty select company. But you better start hitting again. It's a cinch that team of yours won't get you any runs.

What keeps those White Sox up? For one thing, they're the best hit-and-run club in the majors. You ought to see Braves' cast-offs Cuccinello, Farrell and Dickshot hustle for Dykes. And Moses is running like he did when he was making All-Star teams . . . If Tobin ever batted right-handed before, nobody ever saw him. Yet he singled to right off southpaw Lee in the Sox three-run eighth as if he meant it. Incidentally, Vic Johnson led off that inning with his first hit of the year. La Forest's double to left center and Fox's Texas leaguer brought in the runs . . . Nice to see La Forest hitting to left occasionally . . . Series scores to date: 5-1, 11-0, 11-3. Remember when the Chisox got only three hits off Ferriss and O'Neill the same afternoon? Give 'em a saliva bath . . . Six defeats in a row for the Red Sox, 14 in games on the trip . . . On the other hand, the White Sox have won 12 of their last 16.

Peace With Gas Ban Off Assures Florida Racing

By JACK CONWAY

THE RETURN OF peace assures Florida of winter racing . . . The ODT bans against the shipment of horses will be eased up today so that the thoroughbreds can be shipped south by rail . . . The lifting of the gas ban and an expected increase in tire allotments will enable those horsemen who have private vans to ship their thoroughbreds over the road to Hialeah Park, Gulfstream and Tropical Park.

Racegoers will also not have as many difficulties going to Florida as they have had in recent years . . . One may now drive his auto anywhere he wishes provided the old buggy will hold together.

Gordon B. Hanlon

Henry McKenna, Boston Herald sports writer, has been appointed a patrol judge for the Narragansett Park meeting that opens on Labor Day . . . McKenna held a similar post at the Spring meeting at the Judge Dooley-Charley Connors controlled track, while he was also a patrol judge during the recent 54-day meeting at Suffolk Downs.

"Knocko" MacCormack, brother of Congressman John W. MacCormack, told me he called the recent foul committed by Johnny Jr. on West Fleet and Windmill the second it happened . . . "I had a box seat with a group of friends in the grandstand," said McCormack, "and the foul was so obvious that I called it the second it happened . . . Our group had a $1500 win bet on Johnny Jr., but we would not have been entitld to win."

Gordon B. Hanlon, former president of Eastern Racing Ass'n, was a visitor to Rockingham Park . . . Hanlon once offered Lou Smith $1,000,000 for 90 per cent of the stock in the Salem, N. H. track . . . Hanlon later bought control of Suffolk Downs from Charles F. Adams and Bruce Wetmore . . . Hanlon is eagerly awaiting the decision of the Federal Court which will decide whether he will regain control of Aldred Trust, which includes the majority of the stock in Suffolk Downs, or whether the receivers will keep the track and later offer it for sale to the highest bidder.

★ ★ ★

Adams' Resting Horses

CHARLES F. ADAMS tells me he has decided to give the racing stable of his son, Lt. Commdr. W. W. Adams, a rest to freshen it up . . . The Adams horses started training early in the spring, and looked impressive at Narragansett Park and during the early days of the Suffolk Downs meeting . . . Side Boy and other members of the stable then began to show the effects of hard campaigning . . . They are entitled to a rest.

Mike Ward of the school committee and his nephew, Lt. Mooney, were visitors at Rockingham Park . . . Mike has always been interested in all branches of sports and has done much to further athletic programs in the Boston school system.

Solly Snyder says he will return to the boxing game with a stable of mitt flingers . . . Solly's brother, "Speedball," is at Atlantic City in charge of their water show which features top girl swimmers . . . Eleanor Holm was a member of the cast when this show appeared at the Arena several years ago . . . Eleanor is the young lady who became an international figure when she was banned from competing in the Olympic games at Berlin for alleged infractions of the rules while ocean bound to Europe.

George Freeman took time out from trying to pick winners at the track to announce that his Irish-American A. A. will conduct its usual Monday night amateur boxing shows at the Arena beginning next month . . . The Arena now has a brand new ice system similar to the one at the Garden . . . It will be possible to remove the ice for special events like boxing and wrestling . . . Formerly a floor was put over the ice, and it was difficult for one to keep warm after being in the building for several hours . . . The new setup will be appreciated by the fans as well as by the promoters.

★ ★ ★

New Dog Tracks

ATTORNEY TOM Lavelle informs me that his Hancock dog group will be prepared to go ahead with plans for a track in 1946 now that the war is over . . . It is likely that there will be two up-state tracks next year with each organization getting 25 nights of racing . . . The present law permits 200 nights of racing in the state.

Horses are arriving at the Marshfield Fair grounds for the meeting that opens next Monday . . . Racing Secretary Jimmy Picarjillo says that with 200 horses on the grounds he will be prepared to put on eight attractive races each day.

Encouraged by its sensational success this year, Pascoag is hastening plans for its new track that will open next year not far from Providence . . . On Wednesday, the Pascoag handle topped $400,000 which is remarkable for a half-mile track . . . There is talk that the new Pascoag track will be a one-mile affair . . . There will be 12 nights of charity racing at Wonderland Park . . . This extra meeting should raise $600,000 for charity.

Sox Score Two In 2nd on Chisox

By HERB FINNEGAN

CHICAGO Aug. 17—Knuckleballer Otis Clark, winner of 11 games at Louisville, made his second start for the Red Sox today in the fourth game of the series with the White Sox. Clark reported to the Sox last Sunday, was unveiled against Cleveland, was chased from the box. His versus today was Johnny Humphries, right-hender with 6-8 record.

Eddie Lake, whose eye was blackened by a ground ball in last night's game, was back at shortstop for the Sox. Because a right-hander was working for the White Sox, Lazor replaced Fox in right field.

The Red Sox entered the game with six straight defeats behind them. The White Sox have won 12 of their last 16.

FIRST INNING

RED SOX—Lake flied to Dickshot. LaForest flied to Moses. Metkovich flied to Hockett. NO RUNS.

WHITE SOX—Moses flied to Johnson. Farrell went out the same way. Schalk singled. Dickshot flied to McBride. NO RUNS.

SECOND INNING

RED SOX—Cuccinello threw out R. Johnson. Lazor grounded out to Farrell. McBride singled. Newsome doubled, scoring McBride. Steiner was safe on Humphries' fumble, Newsome scoring. Clark flied to Hockett. —TWO RUNS.

WHITE SOX—Cuccinello tripled. Cuccinello scored on a wild pitch. Hockett flied to R. Johnson. Michaels flied to McBride. Tresh singled. Humphries flied to Lazor.—ONE RUN.

THIRD INNING

RED SOX—Lake walked. LaForest flied to Moses. Metkovich hit into a double play, Michaels to Farrell. NO RUNS.

WHITE SOX—Moses flied to R. Johnson. Farrell popped to Lake. Schalk fouled to R. Johnson. NO RUNS.

FOURTH INNING

RED SOX—R. Johnson popped to Schalk. Lazor singled. Michaels threw out McBride. Newsome flied to Dickshot—NO RUNS.

WHITE SOX—Dickshot fouled to Metkovich. Cuccinello walked. Hockett flied to Lazor. Michaels fouled to Steiner—NO RUNS.

FIFTH INNING

RED SOX — Steiner singled. Clark sacrificed, Farrell to Schalk. Lake walked. LaForest flied to Moses. Metkovich popped to Cuccinello. NO RUNS.

WHITE SOX—LaForest threw out Tresh. Lake threw out Humphries. Moses singled. Farrell singled. Schalk flied to Lazor. NO RUNS.

SIXTH INNING

RED SOX—Michaels threw out R. Johnson. Lazor doubled. McBride walked. Newsome singled, scoring Lazor. Steiner singled, scoring McBride. Clark flied to Hockett. Newsome scoring. Lake lined to Cuccinello.—THREE RUNS.

Somerville Grid Berth to Lynch; Curtin Shifted

At a meeting of the Somerville school committee ending at 2:30 this morning Thomas Lynch was elected teacher-coach of football at Somerville High for 1945.

Lynch served as football coach last year and had a successful year, his team losing only one game and administering the first defeat to Medford in over a quarter of a century. The committee also authorized the employment of Lynch as a teacher of biology in the High School.

James "Barney" Curtin, baseball coach of Somerville for several years, was transferred from the faculty of Western Junior High, where he has served for a number of years, to teacher of mathematics in the High School. He coached a number of championship baseball teams at Somerville High.

King Henry Missed Something

The old king, accustomed to the best, usually got it, but even his royal brewers couldn't equal Utica Club Old English Brand Ale. Costs more than ordinary brews. Worth it! On tap or in bottles. Advt.

Navy Yard Wins, Awaits Finals

While 15,000 avid fans jammed every seat at the Town Field in Dorchester last night, the Navy Yard A. A. barely shaded the Dick Casey Club in the final game of Series A by a 5 to 4 count.

With the Caseys out of the championship running for the first time in six years, the sailors jubilantly hailed Joe Callahan, the former Braves' pitcher who went in as a relief pitcher in the third inning of the game to halt the Caseys.

In addition to Callahan who also contributed a lusty single in the seventh inning when the Navy Yarders iced the game with three runs, Joe Kiddick shared the honors for the night with two smashing singles, scoring a brace of runs.

The Navy Yard club will be idle until Monday when the final championship series gets underway.

The Linehan Club of South Boston ran roughshod over the Roslindale Town Team in the "B-C Series" last night scoring a 10 to 6 win over the Towners and bringing the series to a tie. The brief 2-out-of-three series will be decided tonight when the clubs meet in the only game of the evening at the South Boston Stadium at 6 p. m.

Don Pearson will carry the hopes of the Roslindale team while the Linehans will counter with Jim Johnson. The winner of tonight's fray meets the Navy Yard next Monday when the championship series gets underway.

Charity Dog Race Nights Listed

The Racing Commission announced today that licenses to conduct dog race meets have been granted to the 101st Infantry Charitable Foundation for a meeting on the Raynham track from Aug. 20 to Aug. 25, inclusive.

The groups benefitnng are: The Archbishop Cushing Fund on Monday; the Disabled American Veterans, American Legion, Veterans of Foreign Wars of Bristol County on Tuesday and Wednesday; the Record-American-Sunday Advertiser Disabled Veterans' Fund on Thursday, and the 101st Infantry Charitable Foundation Fund on Friday and Saturday.

Dog Show on Aug. 25 At Myopia Hunt

The North Shore Kennel Club is holding its eleventh annual dog show, at the Myopia Hunt Club in Hamilton on Saturday, Aug. 25. The show will be open from 9 a. m. to 5 p. m. Judging will begin promptly at 10 a. m.

THEY'LL DO IT EVERY TIME

By Jimmy Hatlo

OH, WE'RE SO GLAD YOU'RE HERE! SOME OF OUR FRIENDS WERE LOOKING AT THE PLANS LAST NIGHT AND THEY HAD THE DUCKIEST IDEA-
THEY MAY BE GLAD HE'S HERE, BUT HE ISN'T. IT'S ABOUT TIME FOR A SLIGHT ACCIDENT ON THIS JOB.
LET 'EM HAVE IT, ED. THEY'VE MADE MORE CHANGES THAN THE DIAPER NURSE IN A MATERNITY WARD.
IF IT ISN'T THEIR FRIENDS THAT HAVE DUCKY IDEAS-THEY GET 'EM FROM THOSE WACKY MAGAZINES.
YES-JUST MAKE THIS THE LIVING ROOM INSTEAD OF THE BED ROOM-PUT THE KITCHEN WHERE THE BATH ROOM IS-AND-UH-LET'S SEE NOW, WHERE WAS I?
KITCHEN

Longwood Tennis Semifinals On

Four Californians, all top ranking woman tennis stars, were left today to meet in the semifinals of the annual Longwood women's invitation tourney.

Dorothy Betz, national champion, was to stack up against Louise Brough, while Mrs. Sarah Palfrey Cook was pitted against Margaret Osborne in the other bracket.

Mrs. Cooke and Miss Osborne had fairly easy times getting to the semifinals, but Miss Betz and Miss Osborne had to stage an uphill fight to remain in the tourney.

Shirley Fry, of Akron, O., national girls' junior champion, pushed the senior champion to the limit before going down, 4—6, 10—8, 9—7. Miss Osborne, ranked No. 2 national, had an equally hard job disposing of Dorothy Bundy, Santa Monica, Cal., 6—1, 3—6, 6—3.

Atomic Bomb Test

—These photographs, taken at a distance of six miles by an Army newsreel automatic camera, show the tremendous blast caused by the atomic bomb explosion during a test made in the desert wastes of New Mexico. From top to bottom, the five pictures show the first terrific smash, the spread of the effect, the dome-like cloud of smoke and the breaking of the dome as it spreads in all directions.

International News Soundphoto from Army Newsreel
